up to 1/2" material thickness**

**Lock drawers in
open or closed
positions**

Model CB-Hand Locking Handle Kit

Presenting the CB-Hand Locking Handle Kit, a unique way to add lock-in and lock-out features to drawers or trays mounted on heavy-duty slides. Comprised of corrosion-resistant components, the CB-Hand locking handle offers one-hand activation with a centrally located push button.

Features and Benefits

- Compatible with models such as 7950/7957, 9301, and other slides with cross sections .75" or greater.
- Accommodates drawers up to 60" wide.
- **Two locking options**
Standard Lock-in only: handle kit mounts to front of drawer
Optional Lock-out: added with a conversion kit. Mechanism mounts to the rear of the drawer.
NOTE: Lock-out not intended for use with over travel slides.
- Push-button at the center of the handle provides for intuitive, one-handed operation.
- Lightweight and corrosion-resistant components
- Cut-to-length stainless steel rods allow for customized drawer widths.

Availability

The standard CBHand-2 includes the handle components and lock mechanism for lock-in only. For lock-out, a separate conversion kit is required (CBHan4-5), plus a connection rod (not included). Stainless steel rods are ordered separately (one set per handle kit). For additional ordering information, see the product technical sheet.

Packaging/Kits

CBHand-2 – Handle kit with lock-in

CBHan3-0100-2 – Includes two 19.7" stainless steel rods

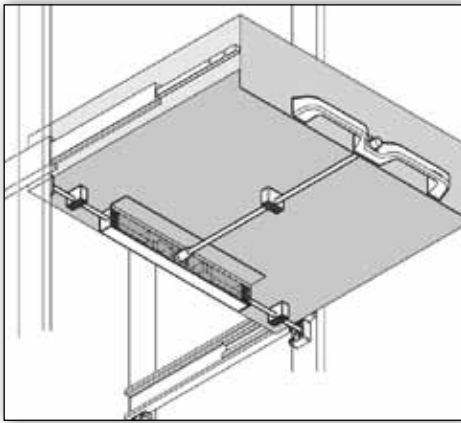

CBHan3-0150-2 – Includes two 29.5" stainless steel rods
