

Certified Behavioral Consultant C.B.C.

Online Training and Certification

What Will I Learn?

- An understanding of DISC and DISC principles, the underlying factors that contribute to each personality style and blends including an individual's; motivators, fears, and preference.
- Environment's impact on personality.
- Mechanics of how to administer, score, and interpret assessment results.
- How different personality styles communicate and best practices for communicating with people of different personality types.
- How to apply your understanding of these principles to specific situations and relationships by evaluating a handful of case studies.
- How to apply this knowledge to practical business applications related to hiring, sales, leadership, personal growth, team building and more.
