

## **Cellulite Factor: Review Examines Dr. Charles' New System For Dramatic Cellulite Reduction**

*Summary: DietsAndFitnessGuides.com releases a review of Cellulite Factor a new program from Fat Loss Factor Creator Dr. Charles Livingston that promises to help dramatically reduce cellulite using a 1,000 year old East African secret.*

"The Cellulite Factor has just been released, and women around the world are eager to learn more about how this unique approach can help them get rid of their unsightly cellulite," reports DietsAndFitnessGuides.com's Vince Delmonico. "This program has created a lot of excitement because it flies in the face of most of the conventional 'wisdom' about how to get rid of cellulite."

Cellulite Factor was created by Dr. Charles, who has become something of a celebrity in the fitness world after the release of his best selling Fat Loss Factor program. While The Fat Loss Factor showed customers methods for naturally, and safely burning fat all over their bodies, The Cellulite Factor focuses specifically on how to get rid of ugly cellulite deposits which Dr. Charles asserts require a different approach.

Delmonico shares his insights on the Cellulite Factor's surging popularity:

"It's no secret that losing weight can be a difficult, uncomfortable, and often confusing process," says Delmonico. "That said, getting rid of cellulite around the thighs, hips, and buttocks can be even harder. In fact, many folks all but give up on the dream that they'll ever be able to get rid of their cellulite stores, because they think that it is 'genetic' and unable to be treated. Because Dr. Charles is such a well respected physician and fat loss expert, his new Cellulite Factor program is bringing new found hope that there actually is a way to get rid of your cellulite for good!"

In an informative posted online by Dr. Charles he explains why conventional cellulite "treatments" like anti-cellulite creams, liposuction, and cellulite reducing massage sessions are ineffective, and then offers women the opportunity to finally fix the underlying causes of cellulite using scientifically proven methods.

In addition to the complete Cellulite Factor System, customers receive daily meal plans, a food diary, a grocery list, cookbook and a toxin avoidance handbook.
