Carson Dunlop Launches Specialty Services to help Home Inspection Clients Home Inspection Clients Now Have Access to Additional Services

Toronto, (December 6, 2012) Carson Dunlop announced the launch of a Specialty Services program to better meet the needs of their clients and real estate professionals. Carson Dunlop has partnered with a number of reputable and qualified companies to provide Specialty Services to its clients as a means of facilitating requests or concerns that fall outside the scope of a Home Inspection.

The program will make adding these services during or after a Home Inspection simple, fast and easy. Carson Dunlop client care consultants will manage the booking, co-ordination and payments of these Specialty Services to help set a new service standard in the Home Inspection industry. The Specialty Services program is launching with the following Specialty Services:

- Asbestos Assessments
- Indoor Air Quality Assessments
- Mold Inspections
- Pool Inspections
- Sewer Camera Inspections
- Termite Inspections
- Thermal Imaging
- Wood Energy Technology Transfer (WETT) Inspections

"The service organizations we've partnered with build upon our core values and standards of Quality, Professionalism, and Experience," commented Alan Carson, President of Carson Dunlop. "The ability to provide access to a wide spectrum of services with a single phone call has been highly requested and is a real value-add to our clients and real estate partners."
