

Dozens of Templates Available Instantly, Free of Charge, according Exceltemplates.net

Free Helpful Templates now Available all in one place, says Flagen

Many people spend hours searching the web to find all the excel templates and spreadsheets they need. Some get so frustrated with the search that they overpay for templates that they could otherwise find for free. This can be a time-consuming and costly process that takes people away from what they're trying to accomplish in the first place.

Now, the most helpful and popular excel templates are available all in one place for free.

"These free excel templates are designed to save people time and money," said site spokeswoman Rita Flagen. "Why would anyone want to waste either on a wild goose chase all over the internet?"

Flagen added, "Everyone is looking for ways to make their lives just a little bit easier. We believe we can help you achieve that goal with free excel templates."

Though the holiday season is in full swing, many people have yet to put together a complete Christmas shopping list. An easy to use and read list is available right now at the new site.

"Even in the digital age, many people enjoy having a paper Christmas shopping list in their hands while bouncing from store to store," said Flagen. "Our free list not only helps people remember everyone they are shopping for this year, but also helps them save time and allows them to get back to their families."

Shopping lists are far from the only thing available on the new site. Vast arrays of checklists are available, including templates for moving, cleaning, camping and vacations. Calculators for credit card payments, monthly bills, auto loans and lease payments are also available instantly.
