

Step up your iphography game with the ultimate creative accessory

Ninth Sprocket Pro System

Pro grip, Color spark filters, LED Fun Spots

Ninth Sprocket iPhone photo accessory combines the feel of a pro DLSR camera and the creativity of toy cameras like the Holga and Diana.

With a big grip, color Spark Filters, color LED Fun Spots, and unlimited DIY mods creativity is in your hands. And if you forget the rules check out the Manifesto. Check sample images on Instagram, Twitter, and Tumblr under Ninth Sprocket --most are straight out of camera with ZERO post process.

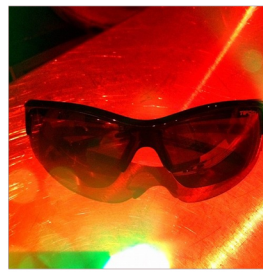

Keep your iPhone 4s! Ninth sprocket will turn it into the ultimate creative iPhoneography system. This iPhone accessory is perfect for Instagram junkies, photo journalists, street photographers, wedding photographers and anyone who loves DIY mods.

Other models are in the works for iPhone 5s. This new patent pending photography system is handy, easy to use and has multiple functions. You can help us revolutionize iPhoneography with #hardprocess effects - get ultra cool creative images without any software. Bring your personality to your iPhoneography with the physical accessories. Help this product come to life check out the KickStarter campaign coming soon.
