# Will You Join the ONE MILLION

## Be a Blessing Challenge?

...Because **<u>SOMEONE</u>** is praying for your act of kindness right now

Stephanie King started the Be a Blessing Challenge after God told her to gather people from all across the world to bless one million people. Stephanie came from a small town in Kentucky and joined the Army where she served for four years as a technical engineer. After leaving the Army, she joined the Department of Defense as a civilian supporting worldwide military logistics operations. Stephanie worked her way to the top very quickly and was well respected by her peers and leaders. At only the age of 26 she was earning six figures and was expected to keep climbing the ladder quickly. However, when she met her husband she says that God told her to leave her career behind to step out on faith in his real estate endeavors. Over the next two years, they lost everything and even had to rely on government healthcare for their children. From this, God birthed a deep compassion in Stephanie for the homeless, hungry, hurting, sick and hopeless. After faithfully obeying God by randomly blessing someone monthly for a couple of years, Stephanie said God spoke to her and told her to gather people from across the world to bless one million people and let them know he loves them. That word from God started the Be a Blessing challenge.

In order to join the Be a Blessing challenge, participants commit to one random act of kindness per month for a year. After committing to the challenge, the participants buy the challenge pack that consists of 12 bracelets and 12 wallet cards that say "God Loves You." Each month when the participant performs the random act of kindness, they also leave the challenge bracelet and card with the recipient. The participant then comes back to the website and shares with others what they did that month for their random act of kindness on the "share your blessings" tab. Also, there is no profit made from the sale of the challenge pack. Any profit goes back to the homeless, hungry, hurting, sick and forgotten through random acts of kindness.

What is unique about the challenge is the bracelets have the web site address on the back. So, the point is that the recipient of the random act of kindness will at some point visit the website and not only join the challenge but also share their version of how the random act of kindness affected them as well.

(for challenge participants)
