California Rooter & Plumbing Announces Special Discount Prices

Bay Area company offers exceptional plumbing services at affordable rates

SAN LEANDRO, CA — As more and more people find themselves with roofer and plumbing repair needs in the winter months, California Rooter & Plumbing has unveiled special discounts on its services.

The company, based in San Leandro, offers a wide range of plumbing services across the San Francisco Bay Area. Through its website, it is now offering \$40 off on any service performed by California Rooter & Plumbing technicians, as well as \$30 off any drain cleaning, \$50 off water heater repairs or replacement and free video cleaning after sewer cleanings. Additionally, seniors, veterans and teachers all receive a five percent discount on services.

“During the winter months, we get a lot of calls from people who need repairs to their hot water heaters and drain pipes, and we wanted to make these services as affordable as possible,” said Frank Hernandez, owner of [California Rooter & Plumbing](#). “With these special discounts, we’re making it easy to work with a helpful and friendly plumbing technician. While our rates are always low, these specials allow us to provide even greater savings for our customers.”

California Rooter & Plumbing is one of the top providers of commercial and residential [plumbing services](#), and is currently significantly expanding its reach throughout the region. The company focuses on providing fast, high-quality and reliable repair services to homeowners and businesses, with open and honest assessments of people’s plumbing repair needs.

The current [web specials](#) offered by California Rooter & Plumbing are valid whenever services are performed, although they cannot be combined with any other coupon or offer. While these special discounts may be available for a limited time, the company has always provided fair pricing to its customers. Its standard practice is to beat its competitors’ rates by at least 10 percent, while offering a 100 percent satisfaction guarantee.

“No one wants to have to hire a plumber to take on a repair project in their home or property, but when they do they want to know that they’re getting their money’s worth,” said Hernandez. “We’ve built our business on always being open and honest with our customers, delivering the very best in service and charging fair prices. Our goal is to be the most trusted source for plumbing and rooting needs in the Bay Area.”

Established in 2005, California Rooter & Plumbing offers a wide range of services to its customers, including leak detection and repairs to toilets, faucets, sinks, showers, dishwashers, water heaters and more. The company also offers emergency plumbing services at no extra charge, responding 24/7 and usually reaching the client’s home or place of business within 45 minutes. Estimates are free and technicians do not charge for travel times.

California Rooter & Plumbing’s services are available in Alameda and Contra Costa counties. To learn more, visit <http://www.calrooterandplumbing.com>.
