

ChargeBee is now a BBB Accredited Business

SaaS businesses looking for a billing solutions provider have to check that the companies they approach have a **good reputation**, have a working solution and most of all, provide adequate and timely support. ChargeBee is on the frontline of providing innovative [recurring billing solutions to SaaS companies](#) and has been [accredited by the Better Business Bureau](#).

Challenges

One of the [challenges that SaaS businesses](#) have to address before they start operations is how to handle billing. Without an efficient billing system that can show revenues generated from sign-ups and upgrades, and the revenue lost from churn, a SaaS business will have a difficult time offering its service and managing growth. Recognizing the problems faced by most SaaS companies, ChargeBee has developed an efficient and accurate billing solution that has **all the features necessary** to help you run your SaaS business without a hassle.

Commitment

ChargeBee has invested a lot of resources in development and support. Our subscription billing software matches the best solutions in the industry and we continue to innovate our product as the demands of our customers change. The **needs of our customers drive the innovation** in our billing software. We have done all the hard work of making online recurring billing seamless. You can therefore concentrate on your core business of making your product awesome as our team does the hard work of making sure customers can purchase your offers easily and without their being compromised.

Subscription Billing Solution with Robust Features

We have partnered with different companies to provide you with an all-in-one solution. Our billing software supports [all the major payment gateways such as 2Checkout, Braintree, Authorize.net and other 25 gateways](#). Therefore, you can get revenues from your customers regardless of the methods that they prefer using to pay. **Never miss a payment again because you do not support a gateway that your customer preferred.**

The [communication and dunning capability of our software](#) helps your business to be more efficient. You can set up automatic invoicing and communication to your customers within a few minutes. Our [sleek designed dashboard](#) makes the software easy to use even if your team is not techie. These are some of the reasons that are making many SaaS businesses are switching their billing solution to ChargeBee.

Better Business Bureau Accreditation

ChargeBee has been accredited by the BBB for its operations, handling of customers and quality

product. Therefore, ***customers can be sure they are working with a legitimate company that has their best interest at heart.***

Customer support

We believe support is just as important as product development. With the difficult work you have of building your business, we understand you do not want to wait for a whole day to get your questions about our product answered. **Our customer support sets us apart from many of the recurring billing solutions providers in the market.** Our support team is there to ensure you do not spend hours searching for a fix to a problem you encounter when using our subscription billing solution.

By choosing ChargeBee as your [recurring billing solution](#), you are taking the right step to handling your SaaS company's payments. You can quickly **configure payments, products, price plans, set VAT**, offer coupons and much more within a few minutes [thanks to our easy set up](#).

ChargeBee's [developer-friendly API](#) can integrate seamlessly with your applications to handle complex business scenarios. Moreover, your data is kept secure in cloud servers and our company being **PCI-compliant**, you can be sure that your customer credit card data is kept safe.

Contact us on +1-877-288-9080 and let us help you take care of your [subscription billing needs](#).
