### **TAB-10: Tractor Air-Brake Lock**

The Tractor Air-Brake Lock protects idling and parked tractors from theft by completely and securely encasing the parking brake and trailer air valves. Made of cast aluminum.

Locks can be keyed alike or differently, with or without a master key.

### **TKP-10: Trailer King Pin Lock**

The Trailer King Pin Lock is constructed of cast steel and is designed for dropped/untethered trailers. Its conical design makes it light-weight and is wide enough to deflect the fifth wheel plate of a thief tractor. The most effective deterrent available.

Locks can be keyed alike or differently, with or without a master key.

### **TGH-10: Trailer Glad Hand Lock**

The Trailer Glad Hand Lock offers a unique design constructed of cast aluminum. It completely covers the glad hand on the trailer while the extended body covers the mounting bolts. Great for "Lock-Out Tag-Out" and maintenance.

Locks can be keyed alike or differently, with or without a master key.

### **TL-10: Trailer Door Lock**

The Trailer Door Lock is reusable, constructed of cast steel, and covers the hasps of most trailers. Once in place, the trailer hasps are completely protected. The TL-10 offers a simple, robust, and cost-effective solution to theft.

Locks can be keyed alike or differently, with or without a master key.

### **TH-10: Heavy Duty Trailer Hasp**

The WAR-LOK TH-10, Heavy Duty Trailer Hasp is made to easily install on all tractor trailers. When combined with the WAR-LOK TL-10 Trailer Door Lock, the TH-10 Trailer Hasp Plate provides the highest level of deterrence to cargo theft. Made of solid stainless steel.

### **RUD: Roll Up Door Latch Guard**

Easily install on Trailers and Intermodal Containers with roll up doors. The RUD-T is compatible with Todco Hasp locking hardware and the RUD-W is compatible with Whiting Hasp locking hardware. Covers the latch handle and when used with a WAR-LOK Padlock can be keyed to match other WAR-LOK products you use.

### **TSK-50: Transportation Security Kit**

The complete Transportation Security Kit includes: Tractor Air Brake Lock, Trailer Glad Hand Lock, Trailer King Pin Lock, Trailer Door Lock, and Heavy Duty Padlock in a convenience carrying case. Can be configured for any combination of locks.

**UTL-10: Utility Brand Trailer Lock**

The Utility Brand Trailer Lock is specifically designed for 2000R and 3000R refrigerated trailers. Made of Stainless Steel, the UTL-10 is resistant to corrosion and cutting with a torch.

Locks can be keyed alike or differently, with or without a master key.

**CTL-10: Cargo Trailer Lock**

The Cargo Trailer Lock is a keyed door lock that fits securely on most cargo trailers with rear and side door hasp mechanisms. Once in place, the cargo hasp is completely protected. The CTL-10 is constructed of die cast zinc while other parts are made of brass and stainless steel, making the lock corrosion resistant. Cost effective and reusable solution to theft.

Locks can be keyed alike or differently, with or without a master key.

**IR-20: Reusable Intermodal Container Lock**

The Reusable Intermodal Container Lock is constructed of cast steel and polyester powder coated, making the lock resistant to bolt cutters, saws, and sledge hammers. Easy to install, the IR-20 fits most intermodal containers and completely encases the hasp. Locks can be keyed alike or differently, with or without a master key.

**IB- IP-10: Intermodal Barrier Box and Pin**

The IP-10 Locking Pin secures the hasp while the reusable IB-10 Barrier Box protects the pin. The IB-10 is more effective than disposable bolt seals and fits a majority of intermodal container hasps. Barrier Boxes & Pins have a minimum quantity of 10.

**Security IRT-10: Intermodal Pin Removal Tool**

The IP-10 and IB-10 are easily installed by hand, but only the IRT-10 can remove the pin once locked in place. Only available for purchase to qualified customers. Orders must be approved by WAR-LOK management.
