

Your invitation to a remarkable opportunity

A Profitable Software Controlled Money Robot

MIDAS SOLID GOLD is Forex trading software developed over a 3-year period by a cross-disciplinary team, headed by a very gifted mathematician.

MIDAS SOLID GOLD was designed to replace human interaction within the Forex Market Trading Platform.

To date **MIDAS SOLID GOLD** has performed in line with expectations and achieved profits of around 48% in the last 6 months. Using back testing over more than 2.5 years, **MIDAS SOLID GOLD** has never closed at a loss. **NEVER**.

This was achieved using verified market performance data and sophisticated algorithms, constantly reacting to market movements and trading conditions.

THE MSG PERSPECTIVE ON SUCCESS

Whilst every existing investment could be subject to a Black Swan Event *, 9 out of 10 losses in most trading occur as a direct result of "human emotion". "Human error" will almost always be the deciding factor in any losses made in trades!

No matter how skilled or experienced any trader may be...No matter how "expert"... eventually any human being will inevitably make errors and lose value over time by basing buys and sells... on ego and emotion. **MIDAS SOLID GOLD** works on the premise that all Forex trading based on emotional states and "hunches"...simply cannot bring long term success.

MIDAS SOLID GOLD operates knowing only that currencies will go up and will go down. **MIDAS SOLID GOLD** Buys & Sells without "involvement", automatically generating profit by virtue of stepping outside of the human experience and remaining in pure mathematics!

Trends are exactly that. And trends cannot be relied upon for consistent profits.

What is needed is a non-emotional mathematical algorithm working without the need for human interference.

Checking buys and sells every 15 seconds; The **MIDAS SOLID GOLD** Software Engine has only one function: to make Profit...Month in and month out.

A consistent winning strategy is our only goal.

We truly believe **MIDAS SOLID GOLD** (MSG) is **THE ANSWER**.

* Black Swan Event is a high-impact, hard to predict, and rare event that is beyond the realm of normal expectations in history, science, finance and technology.

The Midas Solid Gold Forex Robot does not guarantee projected profits. The Midas Solid Gold Forex Robot requires a minimum capital sum of US\$50,000. Midas Solid Gold Forex Robot is not an investment product. It is a software product that you can license to trade forex with an associated hosting service.

Forex trading is risky and not suitable for all investors.

This software licensing offer is restricted to a small number of personal contacts, by invitation only.

We have no access to your money. None.
