Managing director:	Anuj Chhabra
Ownership:	Privately owned
No. of employees:	70-100
Sales 2009:	US\$20-25 million
Plant locations:	New Delhi, India
Production 2009:	12,000 tonnes
Profile:	R.P. Industries (RPI) is a family-run business established some 30 years ago. The company produces tailor-made masterbatch which is then sold under the RePIN brand within the local market as well as delivered to clients in the Middle East, Africa, Western and Eastern Europe, CIS countries and South and Central America. The company expects to expand further into the global markets via its agents, partners and a direct sales network. The exhibition K 2010 in Düsseldorf will be one of the events where RPI will seek future growth opportunities for its business.
Product line:	RPI specialises in white, black, colour and additive masterbatch using a wide variety of polymers including styrenics (HIPS, ABS, SAN), polyolefins (LDPE, LLDPE, HDPE, PP) and engineering plastics (PC, PBT, PET, PU, PPU, PA).
Product strengths:	RPI's particular strength lies in colour, PET and additive masterbatches which include UV, anti-static, anti-block, anti-oxidant, flame-retardant and processing aid masterbatches to name but a few.
