DEDICATION

This work is dedicated to every man, woman and child in this most magnificent brilliant blue marble of the cosmos that we call Earth, who have boldly asked the elusive questions about Creation and Existence, Purpose of Life, Secrets of the path to the Shangri-La of Abundant Life in an insatiable search for the Truth. *At the core of Creation and Existence lies the foundation of symbiotic collaborative relationships established through the free will of mutual consent between the relating partners for the purpose of collective coexistence.* I applaud and celebrate your quest which has brought you to this book today and in the process, you are about to embark on a journey built on the same foundation of a symbiotic collaborative relationship between you and I through our free will of mutual consent. Once you read this book you will discover the Truth about yourself in particular and Existence in general. The Truth is already known to you and has been that way since eternity. However this Truth lays dormant, buried deep within the catacombs of your immortal subconscious memory. The book will guide you on an adventure to reveal the Truth and you will begin to resonate once again with the symphony of Creation of Existence. Therein lays the secret to the fulfillment of your immortal Life Purpose in this mortal Life Experience.

ACKNOWLEDGMENTS

I thank the many modern day physicists, cosmologists, teachers, ordinary men and women with extraordinary skills and connections to their non-physical selves that I have had the opportunity to interact with, all my like-minded friends and family for their incessant research for the Truth about Creation and Existence and for their effusive and unrestrained willingness to share their knowledge with me and for their patience to listen to my rather esoteric ramblings from time to time. I thank all the enlightened and awakened individuals who graced this planet long before any organized religion was born, for their wisdom, insight, discoveries, analysis and knowledge about Creation and Existence. I thank the *ETERNAL CONSCIOUSNESS* for revealing to me through those countless hours of self-realization and self-revelation, the sublime information that I call the *Genetics Of Divinity*, that seem to simply flow into me since that winter December evening, that I call the defining moment of this lifetime, flooding my consciousness with such esoteric cognitions that have led me to the liberating path of Eternal Truth. I am humbled and filled with gratitude with the knowledge that was revealed to me that has transformed my life experience from unbounded plight to unbounded delight. Now as directed to be my life purpose, I convey the same knowledge to you to rekindle memories of this Eternal Truth that currently lays dormant in your subconscious mind, so that you too can enjoy a life experience filled with unbounded delight.

You and I are about to establish a symbiotic collaborative relationship with each other through our free will of mutual consent for the purpose of collective coexistence. This is the only reason why you have been presented with the material contained in this book. Welcome to the portal for your *Genetics Of Divinity*.

The Conclusion

The PERCEIVED REALITY in your life is a Fantasy.

Is NOW the Time to Step Into YOUR TRUE REALITY?

I Am Immortal... Not believing in this is Immoral.

YOU Are Immortal... Not believing in this is Immoral.

I Have **Not** Been Designed For Immorality.

You Have **Not** Been Designed For Immorality.

I AM IMMORTAL.

YOU ARE IMMORTAL.

**WE ARE ALL DESIGNED TO ENJOY UNBOUNDED
DELIGHT IN OUR PHYSICAL LIFE EXPERIENCE.**

I RESPECT, HONOR and CELEBRATE YOU.

I had ten objectives for you while I was framing the information contained in this book:

1. Describe the Code of the *Genetics Of Divinity* that defines the complete design of Existence and upgrade your consciousness.
2. Illustrate how you can use the *Genetics Of Divinity* to find your definitive Life Purpose and be able to upgrade your level of consciousness.
3. Illustrate how by simply applying the Code of the *Genetics Of Divinity* you can make the right decisions in life every time all the time.
4. Explain how the definite direction of your Life Purpose is always based on service that you are to deliver *for others* to receive and consequently how others have a Life Purpose to serve *for you* to

- receive through the establishment of *symbiotic collaborative relationships* through mutual consent.
5. Provide convincing evidence that you and everything else have been created with the sole design principle of all Existence for enjoying a life experience filled with unbounded delight.
 6. Describe how the current challenges in your life are there only to show you by *Contrast* what a different life experience could be without those challenges. Once you become aware of this Contrast, applying the Code of the *Genetics Of Divinity* can enable you to live a life experience in that Contrast.
 7. Clarify for you that you *always* have a choice to choose your life experience at every moment. Nobody has a right, according to the Laws of Creation and neither do you need to relinquish the right to others to dictate the quality of *your* life experience – only *you* have that right over *your* own life experience. Anything else is a violation of the Code of the Genetics Of Divinity.
 8. Explain the true mechanics behind the Law of Attraction. The manner in which you have been taught to apply the Law of Attraction so far in all likelihood is flawed and non-repeatable – hence the LoA has proved less effective compared to your expectations. Once you apply the correct protocols as I describe here, the Law of Attraction will work for you consistently and expediently all the time.
 9. Demonstrate to you that the Code of the *Genetics Of Divinity* is fair, providing for and empowering you in the same manner that it provides for and empowers others. There is no need for a life experience of lack and scarcity – there is always more where whatever you desire came from, as long as that desire is logical and ethically feasible.
 10. Your physical body is mortal but your non-physical self is IMMORTAL and truth be told *you never pass away* – you are designed to *only pass on* to a different life experience with a different Life Purpose. It's time to get over the debate of IMMORTALITY and get on with a life according to the code of the *Genetics Of Divinity*.

Chapters 1 Through 9 of this book have been intentionally excluded from this electronic version which is for previewing purposes only.

Chapter 10 – The Beginning

I started this book with a Chapter titled ‘The Conclusion’ and I am ending this book with this Chapter that I have titled “The Beginning”. Unconventional for sure but I had to convey unconventional information. The repetitive mortality of your physical 3-D *Adaptivebody* contributes to the immortality of your non-physical 5-D *Activebody* that resides in the domain of stabilized energy, immune to the aging of time. Each mortal life experience that your 3-D *Adaptivebody* is awarded with is not a mere random happenstance. It is the end result of a well-designed plan of Coherent Source Energy through which your *Adaptivebody* is assigned with a specific purpose by your *Activebody*, following the Cycle of Creation. All of this is motivated by the inspiration for the expansion and sustenance of Existence by establishing symbiotic collaborative relationships for the purpose of collective coexistence, incrementally establishing the stability in the Third Dimension. This is the core objective of your *Activebody* – that to collaborate and stabilize this Third Dimension of Existence.

When would the Third Dimension achieve the stability of the higher dimensions? Simply follow the principles of stability as I discussed in Chapter 8 and you will know the answer – the answer lies in the code of the *Genetics Of Divinity*. The instability of 3-D *Adaptivebodies* is the result of all of the artificial conflict, hardship, scarcity, deprivation and the random blindfolded application of our free will – contributing to the plight of humanity today. In other words *Adaptive Energy* is stymied with dissonance which prevents the formation of standing waveforms, consequently thwarting stability from being instituted. Remove these elements from

humanity and symbiotic collaborative relationships will automatically begin to form and proliferate, thereby stabilizing our Third Dimension.

My goal in this book has been to elevate your consciousness to a level higher than you were at before you started to consume and rationalize this information and help you reactivate the code of the *Genetics Of Divinity* from your subconscious mind. This book and the online Multiversity of the *Genetics Of Divinity*, two Type D *Adaptivebodies* that you now have access to, contains my own (Type A *Adaptivebody*) *Adaptive Energy* that I have transferred to them. These resources contain the signature of my own elevated consciousness that I have shared with you. How you came to know about this book is irrelevant, but what is important to know is if your central nervous system received and responded to the sinusoidal waveforms of *Adaptive Energy* that this book and the online training has been transmitting – unbeknownst to you. When you responded through your thoughts you generated like-frequency THETA waves towards the book or the Multiversity content and together there was resonance. The two of you got aligned and you found yourself getting attracted towards this content. Now you have established a symbiotic collaborative relationship with each other all for the purpose of collective coexistence.

As promised in Chapter 3, it is now time with your upgraded consciousness to revisit Exercises #02 and #03. Remember to download the worksheets of the relationship analysis chart from the Multiversity portal while going through these exercises again, however with a very important twist. In Chapter 3 when you completed those two exercises, I had asked you to focus on them based on your past experiences with yourself and the twelve other secondary relationship categories. When you perform those exercises now, I want you to future-project each of those relationships on how you would desire to engage in those relationships in a (or multiple) Parallel Universe(s) where you want to spend the remainder of your mortal lifetime for the purpose of collective coexistence. Parallelism is offering you choices

right now in each of your thirteen relationship categories, what would your choices be?

I will be curious to know your new score once you complete that exercise and would be eager to learn about your experiences through the Multiversity portal. What you find will probably startle you. Do you see the obvious improvement? What happened between Chapter 3 and now that caused such an improvement of your self-image and consciousness? Needless to say, such an improvement would occur only if you have internalized what you have learned from this book and through the Multiversity and allowed those dormant memories of the code of the *Genetics of Divinity* to get reactivated from the subconscious to your conscious mind.

Finding Your True Identity

While the book (Type D *Adaptivebody*) has only one unique frequency through which it transmits its acquired *Adaptive Energy*, you on the other hand, a much highly endowed Type A *Adaptivebody*, have the ability to transmit and receive an entire band of frequencies of *Adaptive Energy*. The question is, what incoming frequencies of *Adaptive Energy* are you resonating with, hence aligning with and getting attracted to? Are they symbiotic collaborative relationships that contribute to the achievement of your life purpose and provide you with emotions of unbounded delight? Are those relationships parasitical in nature that erode the Potential Energy within your *Adaptivebody* distracting you away from the achievement of your life purpose, and leading you to a life experience filled with plight? What choices are you making every moment of your life experience from the plethora of options being presented to you by Parallelism? Candid answers to these questions that you ask yourself would identify for you where your past life experience had brought you today. Through the element of Contrast, you can clarify what you need to do to have a life experience drastically different in the future, in a different Type 3 Parallel Universe of Existence.

Without a doubt, if you have read this book and accessed the online training content, and have resonated with the information contained here, you have experienced an upgrade in your consciousness from where you were before you started. I encourage you to repeat Exercises 2 and 3 from Chapter 3 and Exercise 4 from Chapter 4 again but future-projecting their context, now that you have consumed all of this material and are more aware of your *Genetics Of Divinity*. In all likelihood, the results from those exercises would be vastly different and improved than your first attempt.

The question arises if all details about the *Genetics Of Divinity* that I have conveyed to the best of my knowledge in this book is the end game and if this information is all that there is to know about Creation and Existence. I would answer that question with a definitive ‘No way! Are you kidding me?’. The grand design of Creation and Existence is too extensive and profound for any one book to cover. There’s much more data from where the information contained in this book came from. Remember that just one gram of your DNA can hold 5.5 Petabytes of data and you have about 5 billion of these DNA pairs in your physical body. Even if you take just the 2nd pair of DNA strands which is one-sixth part of the DNA in each cell of your body, where the *Genetics of Divinity* is stored, how much of data are we talking about?

I have only scratched the surface of the infiniteness of the *Genetics Of Divinity* in this book.

The information contained in this book about *Genetics Of Divinity* is the result of the questions that I have asked my *Activebody* and have sought answers for, based on my perceptions of reality of my personal life experience. You as the reader of this book and more importantly a Type A *Adaptivebody* with your own personal life experience in all likelihood would have other questions of your own that have eluded you in the past, leaving you unsatisfied and incomplete. I welcome you to connect with your own *Activebody* to ask your own questions. If you would like, leverage the online community of like-minded people just

like you at www.GeneticsOfDivinity.com to share the wisdom that you receive with the rest of the world. In the follow on book I will explain techniques through which you can re-ignite the dormant communication channel with your *Activebody* in the 5-D. You are designed to receive additional insight on the *Genetics Of Divinity* and guidance to identify your life purpose and have a forthcoming life experience filled with unbounded delight. You were designed as a Creature with the will to receive and experience unbounded delight during your tenure in this physical 3-D *Adaptivebody*. You have a birthright to such a life and you are here sharing a contemporary lifetime so that you can enjoy such a life. So is NOW the time for you to stake your claim to your definition of unbounded delight?

Defining Your Very Own Parallel Universe

Before I wrap up this first leg of the most amazing journey that I have embarked on under the guidance of my *Activebody*, I would encourage you to complete an exercise under the guidance of your newly elevated consciousness. In this exercise, I invite you to engage your PUPS and your EGS to describe the Type 3 Parallel Universe where you personally would desire to spend the forthcoming days of your life experience in this mortal form. This is an important exercise for you to complete because I will have you refer to it in the follow-on book *Miracles From Genetics Of Divinity*, where I describe the techniques that you would follow to find yourself incrementally navigating through a series of Type 3 multi-verses until you arrive at that Parallel Universe you define now. I would like to remind you of the basic principles of Creation and Existence as you settle down to complete this exercise:

1. You have to define entirely for yourself what your perception and interpretation of *unbounded delight* is - the forthcoming questionnaire would guide you. You are going to use those components and implant them in your Type 3 Parallel Universe.
2. We are talking about a physical Type 3 Parallel Universe, hence such a Universe would need to

conform to the physical laws of Existence. So pigs can't fly in that Parallel Universe, castles cannot be built in the air and that genie inside you cannot produce what you want in your life experience at the click of your fingers or rubbing that magic lamp. Be reasonable, use common sense and logical reasoning following the guidelines of ethical feasibility during the process.

3. Focus on the *what* and the *why* as you define your coveted Parallel Universe. Refrain from focusing on the *How*. If you knew the *How*, you would already have been living that experience.
4. If you *want* something in your life experience, that is **not** good enough. You have to convert that want into a *need*, which is a more powerful wave of Adaptive Energy. A *need* is a must have with a justifying reason behind it. You must be able to articulate the reason clearly. Now that you have the need, take it one notch higher by converting that into a *desire*, which is a need augmented by an appropriate emotion high on the EGS scale. Can you express that emotion without inhibition and doubt?
5. What you desire, would desire you as long as both of you have DI that is acceptable to each other so that your frequencies can resonate and develop that symbiotic collaborative relationship.
6. Just because you desire to establish a relationship with another *Adaptivebody* does not enforce or obligate that *Adaptivebody* to reciprocate. *You must understand that any stable symbiotic relationship is based on collaboration and not a compromise and must be established through the free will of mutual consent for the purpose of collective coexistence.*
7. Take full responsibility and accountability of yourself for anything and everything that has happened to you in your past, which will give you the strength and confidence for everything that you are about to usher into your future life experience. There is no external entity that dictates your life – although your physical body is immortal, your *Activebody* is immortal. Free will is yours to leverage and you have complete control of every moment of your life experience.

8. Existence is based on *service for others* and establishing *symbiotic collaborative relationships*. What do these terms mean to you and how would you conduct and carry yourself in that Parallel Universe under the guidelines of the core principle of the *Genetics Of Divinity*?
9. Refrain from assigning any time limits or deadlines on your journey through the multiverses just yet. Collapsing time or reducing the *gestation period* to realize your desires in the life experience in the 4-D is a rather advanced skill and can be achieved – you are not ready for that level of expertise just yet.
10. Engage as many of your five sensory feedback systems as possible during the process as you define components of your life experience in your Parallel Universe – this enhances the power of the perceived reality.

If you are unable to understand and agree to all of the above considerations, you are not yet quite ready from a consciousness maturity point of view to perform this exercise with much efficiency. This is not to disappoint you but to demonstrate Contrast. If you are not ready at this point to define your Parallel Universe, it is clarifying to you what you need to do in order to get ready. Maybe all you need is another attentive reading of this book to understand the principles of Creation and Existence as defined by the *Genetics Of Divinity*. Assuming you have achieved readiness to define your Parallel Universe let's embark on this adventure of your future life experience.

Invest some time to review and analyze Figure 41. You will be defining your desired Parallel Universe following the basic principles that I have described earlier. This chart is downloadable from within the Multiversity portal of the *Genetics Of Divinity* that you have access to as an owner of this book. On the left column of the chart are the different categories of Adaptivebodies that make up your physical life experience. On the columns to its right are challenge questions that I have for you to answer with as much clarity and definitiveness. In some cases, especially in case on people or objects you may not know them personally or their

identity yet. In that case, describe the characteristics and key attributes of that *Adaptivebody* that you desire for.

When I was going through that personal relationship recovery in my life that I referred to in Chapter 1, I did not know the identity of my soul mate. All I focused on were the emotions that I would feel in the company of such a lady in my life and on the precise nature of our symbiotic collaborative relationship. Within a short period of time, I aligned with and found myself attracted to such a lady thousands of miles away on opposite ends of the planet, under circumstances that clearly defies common logic. When I was looking for a luxury car in my Parallel Universe, I did not have a brand name, make or model in my mind – all I had were some of the specifications of such a vehicle. Such a vehicle would definitely have an impressive price tag but I did not focus on that at all – just the characteristics of the vehicle that I would be driving in my Parallel Universe. Within a few weeks, I aligned with such a vehicle, got attracted to it and eventually acquired it – the money came from a source that was not in my plan by any means. Focus on the *What* and the *Why* and allow the reactivated memories of the *Genetics of Divinity* to lead you through the *How*.

Type 3 Parallel Universes do exist – it's time to get over the debate and doubt. You are living in one right now and could have been in another one by choice at a prior instant, having an entirely different life experience right now. You have the ability to define and find yourself in a Parallel Universe that you desire. Parallelism and Contrast are attributes of Creation meant to allow you the Creature to enjoy a physical life experience filled with unbounded delight through the exercise of your free will.

It is very important that you be careful about the manner in which you define the attributes of your Parallel Universe. For example, if you have been diagnosed with a disease that you want to get out of your body, you would be focusing on the Health category of the Parallel Universe definition in Figure 41. Instead of mentioning anything about the disease (the subject) describe the characteristics of your body as if it was a normal healthy body - energy flows where attention

goes. Apply the focus of your THETA brainwaves on the natural health of your body and not on the disease itself in this example.

While you define the desired components for your Parallel Universe make sure you use *present tense, first person and active voice* as if you are already living in that physical life experience. This significantly accelerates the journey to your desired destination.

There is another common mistake people make while defining their desires – they focus on all the things that they *don't* want in their life experience. *Energy flows where attention goes*. As you work on the components of your Type 3 Parallel Universe, focus on the precise need and the desire. For example, instead of saying that you don't want debt in life, mention that you desire to be financially free in your Parallel Universe to buy anything that you desire without considering the price tag as a deciding factor.

Most importantly, the purpose of this exercise is not to define the end game – or the final Parallel Universe that you would desire to enjoy your life experience in – you can hop between multiple Parallel Universes each better than the last one. As you ride the magic of your PUPS, pay close attention to the feedback from your EGS. You must feel good with emotions higher on the EGS scale about what you define on the worksheet in Figure 41. If what you define does not make you feel good about it, break it down into smaller components that seem more believable and achievable to you. It is perfectly ok and actually advisable to travel through Parallel Multiverses before you arrive at your coveted Parallel Universe.

The quest for instant gratification is not possible by design of the 4-D in your physical 3-D *Adaptivebody*, and chasing such an objective would only bring more grief to the desperation. Any attempts to circumvent such a design as an *Adaptivebody* is a futile exercise that erodes your *Adaptive* energy to create memory systems that are not anabolic to your life experience. Such attempts to pursue instant

gratification would without a doubt, present the *Adaptivebody* with emotions that are lower in the EGS scale.

Invest your time and energy to complete the worksheet in Figure 41 using the guidelines that I have described here. In the following book, *Miracles From Genetics Of Divinity*, I will describe techniques that you can adopt and apply to actually embark on your journey through your multiverses and find yourself in the Parallel Universes of your choice. When you are there, you will begin again to define yet another series of multiverses to a new Parallel Universe to find yourself enjoying a different level of unbounded delight.

Four Types of Civilizations + The Fifth

The notable Theoretical Physicist, Dr. Michio Kaku describes four types of civilizations based on their level of consciousness and maturity to impact Existence.

Type 0 civilization represents humanity in its current level of consciousness, hostage to the doctrines of fate and destiny and going through an unpredictable and unstable life experience according to the principles of the default operating system of Existence in the 3-D. Whatever your current perception is about humanity, that is the Type 0 civilization that Dr. Kaku refers to.

Dr. Kaku describes a Type 1 civilization as one that has acquired the consciousness to control the physical attributes of the planet where they live in. Since Source Energy is at the core of all matter in Existence, a Type 1 civilization would understand that the planet where they inhabit is also a derivative of Source Energy. Geological, maritime (if the planet has liquid states of matter), meteorological, seismological, atmospheric, cosmological properties of the planet where such a civilization lives are the effect of the flow of *Adaptive Energy* through the planet in the Type B energy band. A Type 1 civilization has the ability to energetically manipulate these properties and functions of

the planet to make it a more hospitable and exciting platform for Creatures conforming to other Type D through Type A energy bands to thrive.

A Type 2 civilization, according to Dr. Kaku is one that is conscious enough to have the ability for controlling inter-planetary properties, functions, interactions and communications within their own galaxy.

A Type 3 civilization, Dr. Kaku theorizes has attained the consciousness that can operate at an inter-galactic plane of Existence, controlling the modus operandi on entire galaxies, each possibly its very own laws of Physics, and in a different spectrum of *Adaptive Energy*.

To these four types of civilizations I would prefer to add a Type 5 civilization that operates in the 11-D and controls Source Energy and the symbiotic collaborative relationships of *sourceons*. Without a doubt, such a civilization does exist, which is why we are here in the first place.

Sounds like a Star Wars® or a Star Trek® story, doesn't it? I personally find such an explanation completely logical and absolutely possible – Parallelism allows such civilizations that have such levels of consciousness to exist and they probably are having a contemporary life experience with us here on Planet Earth. Our perceived reality on planet Earth is but a tiny segment in the spectrum of *Adaptive Energy* – true reality can only be *felt* in a non-physical plane of Existence.

Can humanity through our *Adaptivebodies* someday become a Type 5 civilization? Definitely not, since our physical *Adaptivebodies* are restricted to the domain of the 3-D on the *leash* of the 4-D. However our non-physical *Activebodies* do have the capability to transcend into the domains of *Active Energy* as you know by now. Can our non-physical *Activebodies* operate in the domain of Source Energy? Well we are already operating in that domain albeit in a different dimension, are we not? We are just not conscious enough just yet – there is no better time than NOW to begin that journey.

I don't know about you, but I actually like this physical 3-D. When coupled with the ability to foresee the future and conduct this life experience with the objective of fulfilling my life purpose, it becomes such an exciting journey through time. The technology of *Genetics Of Divinity* enables the practitioner to experience such a life. Whatever you have done so far in your life has brought you to this moment of choice – Parallelism at play once again. What would you choose to do?

As I say *C'est la vie* (such is life) in its true glory that has remained obscured to your consciousness so far, I urge you to memorize the following lines and repeat the following, verbally or even write it down in a personal diary as many times as possible every day.

It Is NOW My Time To Step Into My TRUE REALITY

I Am Immortal... Not believing in this is Immoral.

I Have **Not** Been Designed For Immorality.

I AM IMMORTAL.

I RESPECT, HONOR and CELEBRATE My Life

You have now been introduced to yourself – the Beginning of your true self has been recorded. Now let's make life happen for you.

Next Steps

If you have read this book thus far you have evolved since the time you started – no point questioning that. Your consciousness has been upgraded – have no doubt. Perform a simple Kinesiology test and you will prove the upgrade to

yourself. You can feel an elevated level of *Adaptive Energy* surging through your physical *Adaptivebody*. You aren't surprised about it are you? You feel more connected to the grid of Existence. You realize that there is an absolutely valid reason why you are here having a contemporary life experience with the rest of Existence in the form of your physical 3-D *Adaptivebody* – makes you feel important doesn't it? Those desires to go out and seek those symbiotic collaborative relationships that you have been yearning for all these years have escalated to an all-time high – have they not? I am glad you are in the groove to re-align with your life purpose. The technology of the *Genetics Of Divinity* has been imprinted in your unique energy signature, which is the combination of your *Active* and *Adaptive* energy, I have simply assisted you to reach into those memory systems and re-activate them into your conscious focus and attention.

Where do you go from here? One of my mentors have said, “Knowledge is Power only if you use it”. Hence I encourage you to now start applying your knowledge by learning the techniques to leverage the technology of the *Genetics Of Divinity* and realign yourself with your life purpose – that to serve the expansion of Existence and enjoy unbounded delight in the process. In my follow-on book *Miracles From Genetics Of Divinity*, I describe some of these techniques that I have used, tested and continue to improve and enhance under the guidance of my *Activebody*. Evolution of consciousness is by no means a destination in this domain of *Adaptive* energy where you and I are having a contemporary life experience. It is a journey until we reach stability and finally declare our independence from the factor of time.

As a student of the technology of *Genetics Of Divinity* you are eligible to access additional content as they become available and I encourage you to visit my website at www.GeneticsOfDivinity.com and request access to the

Multiversity portal for the latest details. You will have access to a moderated online forum where not only can you have access to me, but can also collaborate with other like-minded individuals who are evolving with you. Share your knowledge in this online community as you revitalize the communication channel with your very own *Activebody*.

Several times every year, I will be hosting some very unique events that you can attend in person or participate online. As more and more individuals remember these *Genetics Of Divinity* I will organize mass events at a global scale where regardless of where you are in the planet you can participate at the same time applying the same techniques as everyone else to generate a global field of *Adaptive Energy* that fosters symbiotic collaborative relationships in a Parallel Universe where humanity lives in love, peace, harmony, security and abundance. Every such event will have a specific theme that we will focus on to generate a massively powerful resonant sinusoidal waveform that restores the glory of our civilization and this planet. My website at www.GeneticsOfDivinity.com will carry all such details and instructions – you are welcome to be a part of this global movement.

Existence is based on the principle of establishing *symbiotic collaborative relationships through the free will of mutual consent between the relating partners for the purpose of collective co-existence*. If you are involved in arts, music, consciousness, non-verbal communications, science and technology, you have a role to play for the sustenance and advancement of life in this planet with the global objective to upgrade us into a Type 1 civilization as Dr. Michio Kaku explains. I encourage you to join the online community and reach out to me to share your cognitions and ideas as you strengthen your connection with your *Activebody*. This desire to share and collaborate will be automatic for you as it have been for me ever since my dormant Type 1 memory

systems started to reactivate. If you are in positions of authority, I encourage you to facilitate research on the technology of the *Genetics Of Divinity*, diverting funds and resources from non-collaborative initiatives that erode humanity today into initiatives that assist in the revival of our civilization regardless of color, race, religion or creed.

We have fought wars, destroyed precious life and property, abused our environment, deprived others from enjoying a fulfilling life since the dawn of human history. What have we been chasing? At the core of everything there is nothing – only pure Source Energy. Where has all that conflict and turmoil really gotten us? We are in violation of the code of Creation and Existence. Whatever it is we are doing is not helping the proliferation of love, peace, security, harmony, health and abundance in this planet is it? Why not try something different by relinquishing the paradigm of scarcity and deprivation and adopting a life guided by a paradigm of abundance using the natural code of the *Genetics Of Divinity*? The choice is yours to make. The decision to usher in life in an abundant Parallel Universe is yours to take. What's the next moment of your life going to be like? Only you can decide for yourself.

G.O.D-speed to you and to every *Adaptivebody life* that you touch in your thirteen relationship categories and engage in symbiotic collaborative relationships through the free will of mutual consent for the purpose of collective coexistence. I look forward to meet you in a different Parallel Universe where we can collaborate for the advancement of our civilization and reignite the glory of our Existence.

Revealing this information is my life purpose, with the objective to serve and assist anyone with a burning desire seeking a better life experience to access, acquire and use this knowledge in every aspect of life, first for the improvement of the self and then for the service of humanity and Existence .” ... Joy Ghosh.

Joy Ghosh is an Electronics and Electrical Engineer, a Software Architect and a certified Hypnotherapist. After investing tens of thousands of dollars and thousands of hours on a generous variety of self- development products and programs on the heavily touted Law of Attraction, all to no avail to improve the quality of his life experience, it had become a question of survival for Joy to figure things out fast or else ...

Determined to seek the answers and resolve many simultaneous challenges in his life, he invested over a decade in research on Applied and Theoretical Physics, Chemistry, Human Anatomy, Engineering, Astronomy, Spirituality, Religion, Hypnotherapy, Sacred Geometry, Multi-Dimensional Energetics, and of course guidance from his Fifth Dimensional *Activebody* in a quest to learn the Truth behind Creation and Existence. The result has been the activation of The *Genetics Of Divinity* – the knowledge that anyone from any background can learn and apply to significantly upgrade their consciousness and enjoy a life experience of peace, love, harmony and abundance.

Miracles From Genetics Of Divinity

What is the purpose of my life? Why am I even here? Regardless of whatever I do why does my life seem so empty? Am I supposed to continue to sacrifice my life and happiness to keep others happy and receive little in return? Why is there so much pain and suffering in my life and in the world? Do I really have any control over my life experience or is it all about destiny and fate? Is there really a God or is it a very partial God? Why do some guys have all the luck and why am I not one of them? What have I done to deserve this? Is the Law of Attraction the biggest hoax of humanity? Is there someone out there who can bring peace and love in my life? Where is my life headed? Is this how life was meant to be?

After a decade of asking these questions and more in an incessant quest for answers through research on Applied and Theoretical Physics, Astronomy, Hypnotherapy, Chemistry, Engineering, the Human Anatomy, Religion, Sacred Geometry, Multi-Dimensional Energetics, after intense periods of soul searching and at the point of giving it all up, Joy Ghosh lay seriously ill one winter December evening as his diseased fragile body progressively started to atrophy and physical life started to slip away. In the darkest hour of his life he asked "Have I lived? Have I loved? Have I served?" and still no answers came. What came was pitch black darkness and a soothing white light that hovered over his head and he knew his time had not come just yet. He knew that his mess was to be the seed for his message. What followed was a reactivation of the dormant memories of the omnipresent code of Eternal Consciousness that Joy now calls **Genetics Of Divinity** from his subconscious mind that progressively transformed and continues to transform his life.

For the first time in human history, Joy comes forth to follow his life purpose that was revealed to him in the darkest hour of his life – that to share the knowledge of the code of the **Genetics Of Divinity** with humanity. The core principle of this code that governs all of EXISTENCE – physical or non-physical is to establish *symbiotic collaborative relationships through the free will of mutual consent for the purpose of collective coexistence*. The code of the **Genetics Of Divinity** is already embedded in your DNA but it lays dormant and hence unable to guide you to a life experience of unbounded delight. Read this book to reactivate those memories and follow the guidance of your upgraded consciousness to transform your life. Finiteness and Scarcity are artificial – Infinite Abundance is natural. When would **NOW** be the time that you restored your natural state of Infinite Abundance and Unbounded Delight?
