

Diopsys, Inc. (<http://www.diopsys.com/>) is a medical instrumentation company dedicated to delivering high-quality, cost-effective preventative health care solutions. The company specializes in the development and marketing of patient-friendly, non-invasive vision testing devices utilizing electrophysiological technology.

Diopsys has developed and markets the patented Diopsys® NOVA-VEP Vision Testing Systems utilized by optometrists and ophthalmologists to help in the detection, diagnosis and treatment of vision disorders, including glaucoma. Diopsys also provides the Enfant® Pediatric VEP Vision Testing System, a device used in testing for visual deficits, including amblyopia, in children as young as six months of age.

Open Regions: Florida, Minnesota, North Carolina, South Carolina, Texas

Clinical Application Specialist (CAS)

In this technically savvy role, you will support and train while you cover the Diopsys® NOVA Vision testing systems from software to service. The position also includes educating and training customers on the technology of electrophysiology, like Visual Evoked Potential (VEP), and the clinical implementation of the device.

Responsibilities:

In this role, you will be responsible preparing for, assisting and performing demonstrations in conjunction with Diopsys District Manager(s). Training and educating customers in understanding and utilizing the equipment is also a key part of the job. The CAS will also maintain a strong customer relationship and provide service when requested inquiries and helping create and improve existing service and support resources.

Working Conditions:

The CAS position is home-office based. The CAS is able to provide all job functions for either their home or in the field with customers. Basic expenses are provided to perform normal job duties. The Diopsys corporate office is located Pine Brook, New Jersey.

Qualifications:

- Bachelor's degree in Physical Science or Nursing preferred
- 5+ years of clinical experience in operating and/or teaching the use of medical equipment
- Strong communication skills, work ethic, and organizational skills
- Ability to efficiently manage time and cost containment in everyday activities
- Availability to travel frequently 40-70%

Benefits:

We value our employees' time and efforts. Our commitment to your success is enhanced by our competitive compensation of \$45K-\$55K annually and extensive benefits package including paid time off, medical, dental and vision benefits and future growth opportunities within the company. Plus, we work to maintain the best possible environment for our employees, where people can learn and grow with the company. We strive to provide a collaborative, creative environment where each person feels encouraged to contribute to our processes, decisions, planning and culture.
