COLOGIX TO SUPPORT CONTINUITYX CLOUD-BASED SOLUTION PORTFOLIO EXPANSION IN MINNEAPOLIS AND MONTREAL

ContinuityX to on-ramp customer demand from Cologix's network neutral data centers located in Minneapolis and in Montreal

Denver, Colorado – December 20, 2012 – Cologix™, a network neutral interconnection and colocation company, announced today that ContinuityX Solutions, Inc. (CUSX), a unique provider of business continuity and disaster recovery services, is making its services available directly to Cologix's customers and connectivity partners in Minneapolis and Montreal. ContinuityX will add nodes in Cologix's data centers at 511 11th Avenue South in Minneapolis and 7171 Jean Talon in Montreal to extend the reach of its North American network. These deployments build on ContinuityX's decision earlier this year to establish a presence in the Cologix data centers at 151 Front Street in Toronto and at 1950 North Stemmons in Dallas.

"Cologix has a unique footprint that includes markets where networks like ours are going next. The ease of doing business with Cologix made the decision to expand our relationship a simple one," stated David Godwin, CEO of ContinuityX. "Our deployments to Minneapolis and Montreal will expand our business reach and improve the delivery performance of our cloud services."

ContinuityX provides consulting services and management of business continuity, virtual/cloud hosting, managed equipment and storage, monitoring, VoIP and voice needs. Its mission is to provide clients with business continuity and disaster recovery solutions faster, more efficiently, and more cost effectively through its unique consultative approach.

"We are delighted that ContinuityX has chosen to grow their business with Cologix. The growth ContinuityX has seen is a testament to their ability to meet customer application and infrastructure needs," stated Grant van Rooyen, Chief Executive Officer, Cologix. "We look forward to continuing to build a strong partnership with the ContinuityX team and to supporting their growth in the years to come."

With data centers in Dallas, Minneapolis, Montreal, Toronto and Vancouver, Cologix provides one of North America's largest neutral marketplaces where network operators and network buyers interconnect.

About Cologix, Inc.
