LUCAS SYSTEMS NAMED TO FOOD LOGISTICS FL100 LIST OF TOP SOFTWARE PROVIDERS FOR FOOD AND BEVERAGE DISTRIBUTION

Lucas Continues To Innovate And Lead With The Only Voice-Directed Warehouse Solutions for Food and Beverage, GS1 Compliance, and New Customers

PITTSBURGH, PA, December 20, 2012 – Lucas Systems, Inc., the largest independent provider of voice-directed warehouse applications, has been named to the FL100, *Food Logistics* magazine’s list of the top software and technology providers to the food and beverage, grocery, and foodservice distribution industries. Jennifer FoodSelect, the first solution for voice picking and other voice-directed warehouse applications for food distributors, continues to win new foodservice and grocery customers. Jennifer FoodSelect fully supports GS1 data standards and provides flexible data capture options to improve traceability initiatives in produce, grocery and foodservice distribution.

Each year, the editors of *Food Logistics* recognize 100 software and technology providers that help food and beverage manufacturers, foodservice distributors, and grocery retailers attain their business goals. The *FL100* is comprised of software providers as well as equipment and technology companies whose products and services play a significant role in food and beverage supply chains.

“With the evolution of the food supply chain, software and technology providers are playing a more critical role in addressing needs such as end-to-end visibility and collaboration, traceability, regulatory compliance, risk management, sustainability, and cost containment,” notes Lara L. Sowinski, editor-in-chief of *Food Logistics*. “Technology is the competitive differentiator for companies in our industry who need to stay ahead of dynamic changes in the marketplace.”

“We are honored to again be included in this prestigious list of top technology providers to the food and beverage industries,” says Jennifer Lachenman, Vice President of Product Strategy and Business Alliances of Lucas Systems. “This recognition by Food Logistics acknowledges our continued growth and expansion as we deliver the industry’s best voice solutions that help our customers improve efficiency and service in addition to enhancing product and worker safety.”

About Food Logistics

Food Logistics is published by Cygnus Business Media, a leading diversified business-to-business media company. The publication serves the information needs of executives involved in various aspects of the food and beverage supply chain. suppliers, distributors, and retailers make better business decisions. Visit us online at www.foodlogistics.com.

About Lucas Systems, Inc.

Since 1998, Lucas Systems has delivered more voice-directed warehouse applications on a wider variety of mobile computers than any other company. Customers like Cardinal Health, the Container Store, HD Supply, OfficeMax, Mondelez (formerly Kraft Nabisco) and Rustoleum trust Lucas to deliver solutions that greatly improve worker productivity and accuracy because Lucas truly understands warehouse operations. Jennifer VoicePlus, the Lucas voice solution, creates a conversation with warehouse workers that frees their hands and eyes to focus on the job at hand. Jennifer also provides managers and supervisors with real-time reporting and management tools that help them better manage their operations. Tens of thousands of associates at hundreds of distribution centers work with Jennifer every day. For more information, visit www.lucasware.com.
