

ERASE Racism's Student Leadership Forum

When: January 21, 2013 10am-4:00pm

Where: The Waldorf School of Garden City

For whom: High school students who want to increase their leadership skills and understanding of social justice issues.

Overview: The Student Leadership Forum is the one-day orientation to ERASE Racism's Student Leadership Program—a series of workshops that teach high-school students about the history of race and racism in the U.S., how it continues to have an impact on one's opportunities, and the changes that can be made to bring about more racial equity. The forum is led by student volunteers and adults, and uses fun, hands-on activities to engage participants, such as a dodge ball game, a treasure hunt and a movie screening.

"I had a blast interacting in activities and meeting new people, and I think ERASE Racism is such a great program because it makes our generation know what is going on. So I thank you, yet again for giving me an experience that I will remember forever." -Student Participant
