With Optional (W6SR) 6 Wheels

6200-2 SA - Value Series

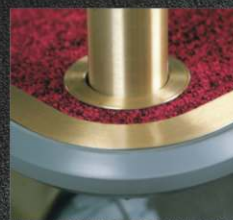

With Optional (W6SR) 6 Wheels

6200 - SA - Value Series

The Glaro Glider line of all-purpose Luggage Carts and Platform Trucks is the most versatile line of its kind. With many options available, these durable but attractive "work-horses" are built strong for the hospitality and healthcare industries, as well as demanding industrial settings, or for general use anywhere.

Uniquely designed and engineered with heavy gauge aluminum 1.5" diameter ergonomic handles, these carts feature a thick, all weather, plywood deck mounted to a heavy duty powder coated steel chassis. Four deck surfaces are available to suit every type of facility: stain resistant Olefin carpeting, attractive black or gray coin design non-slip vinyl, satin aluminum, and hardened steel in a choice of black or silver vein. Twenty seven optional powder coated finishes are also available. All models are fitted with a tough non-marking full-surround bumper. Deluxe models have an additional aluminum extrusion encased deck edge and decorative aluminum trim rings at the bottom of each handle.

Two swivel and two rigid solid rubber casters absorb shock and move quietly over hard or carpeted surfaces, efficiently transporting 1500 pounds or more of luggage, supplies, or equipment. Specify the optional "pneumatic wheel" upgrade for a more cushioned ride. For additional load capacity and unsurpassed "pinpoint maneuverability" order the Glaro "optional 6 wheel configuration". For two handle models consider the "optional removable side containment rails" to better secure small parcels during transport.

Deluxe Series Bumper & Trim

Solid Rubber Standard

Pneumatic Optional
