

## **The Magic Of Making Up: Review Examining T Dub's Get Your Ex Back Program Released By ConquerHisHeart.com**

--

*Summary: ConquerHisHeart.com releases a review of The Magic Of Making Up, T.W. Jackson's popular program for those seeking to reconnect with their exes after a break up.*

"The Magic Of Making Up by T.W. (T-Dub) Jackson has remained immensely popular since it's initial release," reports ConquerHisHeart.com's Sean Roman. "This book has been read by over 50,119 customers in 77 countries worldwide, so we thought it was about time that we released a review for our website visitors."

The Magic Of Making Up was written by Arkansas resident T.W. Jackson, who makes it clear that he is not any sort of psychologist, medical doctor, or relationship guru. On the contrary, this a self described "male version of Dear Abby" is an all around regular guy who enjoys fishing, beer and other manly past times. This being the case, tens of thousands of heartbroken men and women have turned to Jackson in recent years for help putting their relationship back together.

Roman offers this insight on the lasting popularity of T Dub's Making Of Making Up program:

"T Dub's program is different than a lot of the other relationship advice out there," says Roman. "It's based on his real world experience rather than some University psychology course, and I think that readers have a much easier time accepting and relating to what T Dub has to say than what they might get from a \$200 an hour marriage counselor."

The Magic Of Making Up is available digitally in PDF format online exclusively through Jackson's website. The concise manuscript explains in plain English Jackson's formula for salvaging a failed relationship even in seemingly hopeless cases involving serious betrayals, infidelity, and the like.

"T Dub's writing style is very friendly and reassuring which is certainly a plus for people going through the emotional upheaval following a break up," says Roman. "Readers will also appreciate that he has kept his message simple and to the point. You aren't going to need to dig through a pile of fluff to get to gold nuggets in this program."
