FBI Protected Author, Gigi Scott Launches Autobiography 'If I Only Knew...'

(Miami Beach, FL) December 31st, 2012- Miami Beach native and author launches autobiography under a pseudo name after having to get the FBI involved to protect her from an ex-husband who has set out to destroy her life.

"I am pleased to announce the release of my book, a story of survival, in every sense of the word. It is my hope that my life's story will serve as inspiration to my readers." She continues, "My story is not gender biased. I believe that both men and women can take something away from If I Only Knew..."

If I Only Knew... is the story of three generations, all female, all Jewish, spanning over three continents. From the late 1800s to present-day 2012, Gigi's life story will take its readers through an emotional journey by way of a time capsule of some sort. It reads like a fictitious story, only it's not! From the story of Gigi's mother who served as a spy for the British, but did not know it, or her ill-fated decisions which ended up in betrayal of love and country, abuse, sex, love, failed marriages, the Israeli mob, and finally, Gigi's plight of survival to escape the wrath of a desperate ex-husband, which resulted in Gigi getting protection by the FBI circa 2010-2012.
