- Cross-cuts paper and credit cards
- Strip cuts Blu-ray, DVD and CD discs
- Overload Protection
- Auto and Manual Reverse

3x9mm

3 Strip Cut

240 Sheet Auto Feed

### Convenient, Hands-Free Shredding for Information Security

Aleratec's RoboShredder Plus makes it easier than ever to keep private information safe by shredding up to 240 sheets of paper at a time automatically. Just load the convenient locking auto feed tray and the RoboShredder Plus takes care of the rest, giving the user time to take care of other things. Because the auto feed tray can be locked when loaded, sensitive documents remain secure until they are destroyed.

It will cross cut paper and credit cards to a shred size of just 3 x 9 millimeters. This shred size meets Level P-4 Based on DIN (Deutsches Institut für Normung) Standard 66399 for paper shredding and is perfect for safely destroying confidential documents and data.

All this is in one of the quietest shredders on the market. The RoboShredder Plus has a noise level of just 60 decibels, about the same level as normal conversation.

To protect against jamming, the RoboShredder Plus also features Overload Protection Technology and auto reverse and manual reverse functions.

# RoboShredder Plus™

## Technical Specifications
