**M**CM Events, a division of Maximum Capacity Media, announces that the fourth CRC/ICHC will take place May 29-30, 2013, at the Indianapolis Marriott North. The jointly held Crane & Rigging Conference and Industrial Crane & Hoist Conference will feature sessions on safety, technology, and productivity for crane and rigging professionals who are working in construction, manufacturing, and energy-related fields.

For the first time since its inception in 2010, the event moves from the Gulf Coast region

to a prime location in the Midwest. "Indianapolis is a hub for industrial, commercial, and transportation industries," said Guy Ramsey, president of Maximum Capacity Media.

Joint and breakout sessions will be led by experts in rigging and crane standards, operator certification, rigging and equipment inspection, risk management, and more. Interactive sessions, "Vendor Vignettes," and "Coffee Breaks with an Expert" offer attendees learning opportunities beyond speaker presentations.

## CRC/ICHC Call for Speakers

Opportunities exist for joint or breakout session speakers, panelists, and hands-on demonstrations for the fourth CRC/ICHC in Indianapolis. Conference organizers are seeking non-commercial presentations highlighting safety and risk management data, new technologies, application case studies, standards and regulations updates, and technical information related to the use of mobile, tower, overhead cranes, or rigging.

Submit your proposed title, a 200-word description, key takeaway points, and credentials at [www.craneandriggingconference.com](http://www.craneandriggingconference.com). Look for the Call for Speakers link. Submission deadline is Jan. 31, 2013.

crane and rigging industry event. For more information, visit [www.craneandriggingconference.com](http://www.craneandriggingconference.com). ■

# Dates Set for Third CRC Canada

**D**ates for the third Crane & Rigging Conference (CRC) Canada has been set by MCM Events. The conference will return Oct. 22-23, 2013, at the Edmonton Marriott at River Cree Resort in Edmonton, Alberta. Next year's conference will feature a follow-up from the Canadian Hoisting & Rigging Safety Council, which held its inaugural gathering during the October 2012 conference, as well as another two-day program of industry-leading presentations and safety topics.

MCM Events is excited to confirm that *Crane & Hoist Canada* magazine has agreed to a long-term media partnership with CRC Canada. Published by Capamara Communications Inc., *Crane & Hoist Canada* has supported CRC Canada since it was launched.

"We are pleased to be the official media partner for the CRC Canada conference and look forward to participating again in 2013. It's gratifying to support an event which advances the industry here in Canada," said Peter Chettleburgh, publisher, *Crane & Hoist Canada*.

"It is an honor to work so closely with a publication that shares our belief that we can influence positive change in the way cranes and hoists are used in the geography," added Richard Howes, associate publisher and editor with Maximum Capacity Media.

Crane professionals from all the western

provinces, and many from the United States, are expected to attend the two-day event. CRC Canada 2013 will address crane and rigging supervisors, facilities managers, and safety personnel. Critical lifting, rigging, overhead cranes, standards, and training will again be among key topics.

The Edmonton Marriott at River Cree Resort is near the airport, the West Edmonton Mall, Galaxyland, and World Waterpark. Other area points of interest include Fort Edmonton Park and Snow Valley Ski Club. Visit the conference website at [www.craneandriggingconference.com/CRC-Canada](http://www.craneandriggingconference.com/CRC-Canada). ■
