

The right partner. The right fit.

Choose a partner with the right fit.

Identifying and selecting the right manufacturing partner is vital to your success. We're focused on providing power solutions to the IT Channel that span from entry-level to data center UPS solutions (350VA-10KVA), PDUs and surge protection. Our technology, quality and manufacturing capabilities provide resellers new opportunities to improve their bottom line.

Become a SMART Partner and succeed.

The CyberPower SMART Partner Program is designed to help resellers achieve maximum profitability. SMART Partners benefit from the most competitive and comprehensive program in the power industry. You'll have exclusive access to the full suite of partner tools, services and support needed to recommend and sell award-winning power solutions from CyberPower.

Award-winning Uninterruptible Power Supply (UPS) systems, PDUs and Surge Protectors for home to enterprise applications. Now offering ENERGY STAR® compliant UPS products.

SMART Partner Program benefits:

- Up to 10% in partner rebates – the most aggressive discount and rebate program in the industry.
- Exclusive sales and technical training, demo units, partner-only promotions, lead opportunities, marketing collateral and more.

Become a SMART Partner to expand your capabilities and increase your profitability.
