About Close the Loop Company (CTL)

Close the Loop works with US manufacturers who produce high quality & unique recycled products from waste tires, plastic milk jugs & glass bottles. Buying US-made recycled products from Close the Loop supports small, progressive, environmentally responsible product manufacturers who create innovative materials, recycled products and green building materials, and gain valuable LEED points.

Our product offerings include:

Plastic Wood Post & Rail Fencing, Plastic Raised Garden Beds/Compost Bins, Rubber Mulch, Tiles & Pavers, Rubber Timbers, Glass Mulch, Glass Play Sand, Promotional imprinted pencils made of rolled newspaper, and more. E-Newsletter, [The Loop](#).

Speaking Presentations Offered:

For Children ~ Magic of Recycling Program ~ CTL worked with Monroe County, the Pleasant Valley School District and Waste Not Technologies (WNT) to help the grade school children recycle over 20,000 milk jugs for Earth Day 2009

For Entrepreneurs ~ Building a Business Website with Marketing & Micro-Manufacturing Tips

Close the Loop works with US manufacturers who use recycled waste materials (tires, plastics & glass) to build high quality products. We believe we need to support & build green US manufacturing jobs. Close the Loop was founded in 2000 to offer recycled products that are made in the USA, and educate school children on the 3 R's, encouraging students (and adults) to view our waste as a valuable resource, showing them what is being manufactured from their waste materials. Using high quality products made from recycled materials is good for people and our planet, and for promoting job growth in America. Close the Loop is dedicated to effecting a positive force for social and environmental change within our community by promoting reuse & recycling, building the acceptance & use of alternative recycled materials, and holding community events such as a GIVE & TAKE DAY, and WEBSITE BUILDING workshops and "Magic of Recycling" for thousands of Monroe County children. Close the Loop has recycled 7 MILLION pounds of tires for new & beneficial uses (rubber mulch for playgrounds, landscaping, equestrian, military use, etc), and over 120,000 lbs of recycled plastic, and are working to build the market for glass mulch & glass sand.

An environmentally & socially focused company offering innovative recycled products: fencing, rubber mulch, glass mulch and much more.
