

# Cookie Audit - Full Report

[uk.reuters.com](http://uk.reuters.com)  
13 December 2012

Produced in association with:

# your full report

This report was generated by searching **500** pages of your site and analysing the content, templates and 3rd party elements allowing us to record any cookies found. Pages that are accessed via embedded forms or any pages that are not directly linked from your site may not be included in the results (unless we added a specific setting for these).

It's useful to consider this report, and the results contained within, as the starting point of 'ensuring your house is order'.

In our experience, the detailed breakdown often throws up a few surprises - often through the use of content that may have been inherited or laying around for a long time - and we think this is a great opportunity to have a thorough 'website cleanse'.

Additional documents you may find useful on your journey to compliance are available at no charge, please email [your.journey@CookieReports.com](mailto:your.journey@CookieReports.com) to request any of the following:

- Corporate service deployment – central policy management, remote site delivery
- Tick boxes, why it's a NO and how you open yourself up to litigation
- Understanding and delivering cookies policies under implied consent
- Ongoing management and keeping control, after the initial audit

Our book "**The journey to compliance**" is also available to download, please visit:  
<http://www.cookiereports.com/download/journeybook>

# summary of findings

The table below gives a summary of the audit of [uk.reuters.com](http://uk.reuters.com), dated **13 December 2012**.

## Pages checked

Your results are based on the audit of **500** pages. To compile the results we reviewed page HTML, read the content and subsequently then operated your site within a browser allowing our JavaScript engine to execute scripts.

## Link issues

During the audit we found **320** links that had issues - such problems may prevent us, visitors or search engines from accessing areas or sections of the site. This information can be provided in a separate report, upon request.

## Web Estate

We also provide a report of the **139** sites you are integrated with, along with a detailed breakdown of your own sub domains (**39**) and likely organization domains (**24**). Your online presence has probably grown over time - often lots added but very little removed. Many clients find this information can be used effectively to remove old content, and as the basis for prioritizing further site audits.

<b>Session cookies set by uk.reuters.com</b> Cookies set by your site, which are deleted when the visitor closes their browser.	<b>44</b>
<b>Session cookies set by third parties</b> Cookies set by a site your site is connected to, which are deleted when the visitor closes their browser.	<b>39</b>
<b>Persistent cookies set by uk.reuters.com</b> Cookies set by your site, which are stored on the visitor's device and expire on a given date.	<b>35</b>
<b>Persistent cookies set by third parties</b> Cookies set by a site your site is connected to, which are stored on the visitor's device and expire on a given date.	<b>227</b>
<b>Flash cookies found</b> Flash movies can store information in "Flash Cookies" which are kept on the visitor's device.	<b>2</b>
<b>JavaScript code that sets cookies</b> List of JavaScript code and files found on your site which may set cookies.	<b>11</b>
<b>Flash movies found</b> List of Flash movies found on your site which may set cookies.	<b>5</b>

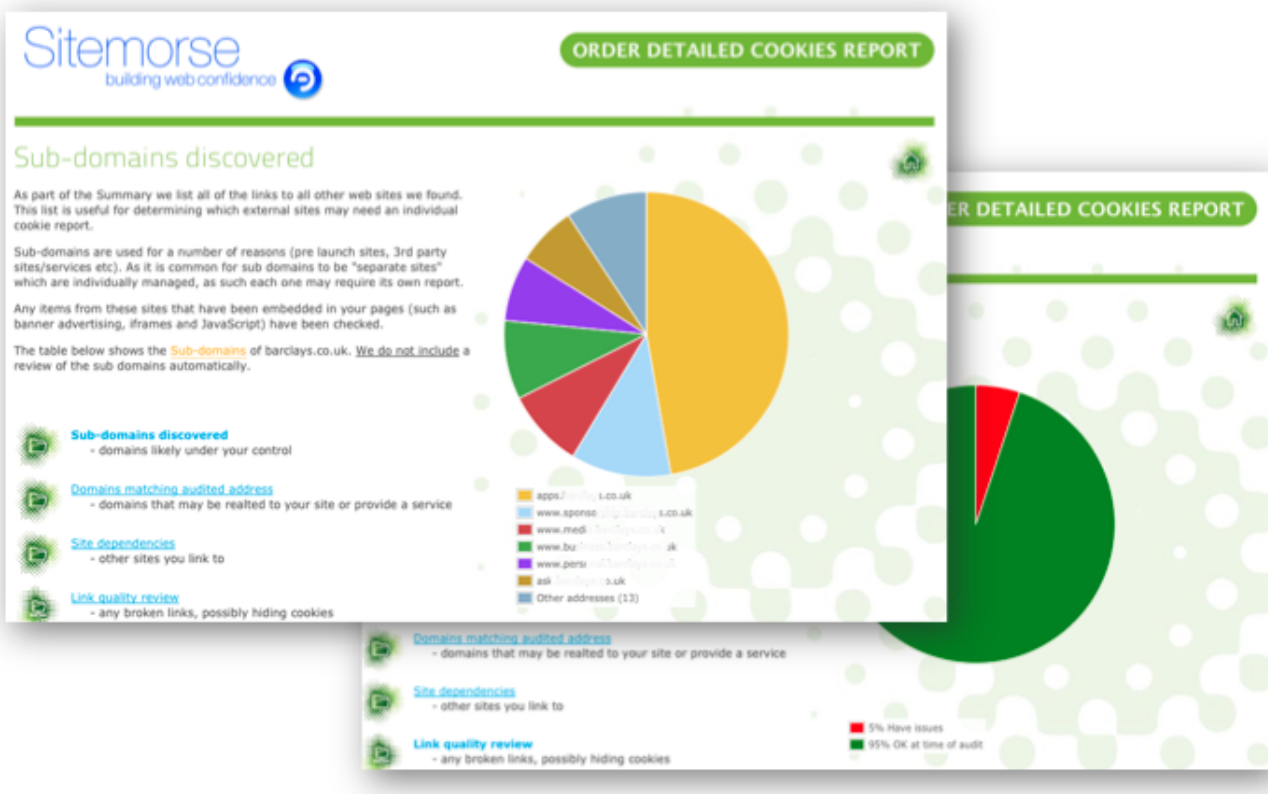

# your web estate uncovered

Your online presence has probably grown over time - it's common for a lot to be added (new services, content etc) - but very little removed.

Online you will find the details of the **24** sites we found that you are integrated with, along with a detailed breakdown of the **39** sub-domains and the **76** sites that are likely owned by your organisation (sites that contain your brand name).

Many clients find this information can be used effectively to remove old content, and as the basis for prioritizing further site audits.

Go online for: [your web estate uncovered](#)

Control - Compliance - Confidence

## how to use this report

Review the findings and determine which cookies are essential for the efficient operation of your site. Consider what could be removed and what is absolutely essential for optimum functionality and visitor experience.

Check there are no cookies adding additional load-time which might disrupt the efficient operation of your site.

3rd party cookies found are detailed in the report. These are cookies which are set by third party content providers, analytics services or advertising servers. Although these cookies are not set directly by your site they are your responsibility as they are set as a direct consequence of the user visiting your site and can enable other organizations to snoop on your visitors and their activities - is this affecting your competitive advantage?

JavaScript code that appears to set cookies is detailed in the report. Manual inspection is required to determine the exact name and nature of the cookies.

Flash movies found are detailed in the report as "Flash cookies" are also covered by this legislation.

We also suggest you take relevant and appropriate legal advice in respect to the potential risk of contravening an individual's privacy.

# an example of a reporting page

An example of the detail we report to is provided below.

For those utilising the corporate estate services, we can also offer the summary and detailed findings in alternative formats for use with internal systems.

**Domain**  
The domain name to which the cookie applies.

The first page we saw that set the cookie. If this page is not on your site then the chain of URLs that lead to this page from your site are also displayed. The first address listed (s?ukws...) is the web address that set the cookie. The last address (/stayahead) is the page on your site that included this content.

**Path**  
Section of the site the cookie applies to.

**Name**  
The name of the cookie found. For your own cookies this hopefully is a name your web team will recognize.

 Is the secure flag set?  
Is the cookie only sent over secure (encrypted) connections.

**Expiry**  
This is the expiry date observed when we ran this audit. However, please note that expiry dates of cookies are very often dynamically set.

enhancing your experience of services or functions offered.

# session cookies found

These are temporary cookie files, which are erased when you close your browser. When you restart your browser and go back to the site that created the cookie, the website will not recognize you. You will have to log back in (if login is required) or select your preferences/themes again if the site uses these features. A new session cookie will be generated, which will store your browsing information and will be active until you leave the site and close your browser.

# persistent cookies found

Persistent cookies help websites remember your information and settings for any future visits. This results in faster and more convenient access since, for example, you don't have to login again.

Besides authentication, other website features made possible by persistent cookies include: language selection, theme selection, menu preferences, internal site bookmarks or favorites, among many others. On your first visit, the website is presented in default mode. During your visit, you select your preferences and these preferences are remembered, through the use of the persistent cookie, the next time you visit the site.

For example, a website may offer its contents in different languages. On your first visit, you may choose to have the content delivered in French and the site may record that preference in a persistent cookie set on your browser. When you revisit that site it will use the cookie to ensure that the content is delivered in French. A persistent cookie enables a website to remember you on subsequent visits, speeding up or enhancing your experience of services or functions offered.

# flash cookies found

Local Shared Objects, commonly known as "Flash Cookies", are data that is stored on users' computers by Adobe Flash Player. Their effect is very similar to that of browser cookies, and similar legal implications apply.

## Flash cookies

This section lists the Flash Cookies that were encountered during this check. For each cookie, the domain name is shown, the path, and the cookie name. The path is often the path to the Flash movie that set the cookie, although please note that the movie is able to override this.

Domain	Path	Name
hiro.viewster.com	/	hiro_companion_cookie
effectivemeasure.net	/	EM_APP

## Flash movies

The previous section only lists cookies that were set without requiring any interaction with the user. However, Flash movies sometimes set cookies only after the user has interacted with the movie. This section therefore lists all the Flash movies that were encountered during this check, and where those movies were linked from. Please note that not all Flash movies use Local Shared Objects, and so a Flash movie appearing in the list below does not necessarily indicate an issue.

# JavaScript code that sets cookies

JavaScript code can also be used to set cookies. These uses of cookies can be conditional, e.g. only activated when the user clicks on a particular page item or performs a particular action, or they can be set as soon as a page is visited.

This section lists all JavaScript code encountered during this check which appears to set cookies, and where that code was linked from if appropriate. Please note that only the first instance of each particular piece of code is shown, and that this section is not guaranteed to detect all possible methods of setting cookies from JavaScript, as this is technically infeasible.

## web forms found

For manual inspection we include the details of all forms found. Submitting a form may result in session or persistent cookies being set in the browser, perhaps after validating authentication credentials and granting access to a client area. Often forms consist of a sequence of stages and may supply the option to store the state of a form for future ease of use.

We found **45** forms when checking your site - details are available upon request.

We submitted **3** GET forms with their default values as part of the scan. (POST forms are generally not submitted as they may cause the website to take a significant action, such as sending an email or posting a comment.)

# about Cookie Reports Ltd

Cookie Reports Ltd has licensed the use of the Sitemorse engine, has subsequently built and now operates an online service for website cookie auditing, monitoring and reporting.

Cookie Reports Ltd  
1 Berkeley Street,  
London,  
W1J 8DJ,  
UK  
t: 020 7129 8113
