Experts Academy, an online training program created by Brendon Burchard that claims that people's own thoughts and experiences might be worth millions of dollars has caught the attention of BarryRealMarketing.com's Mark Stevenson, prompting an investigative Experts Academy review.

"Whether you're already experienced in the world of marketing or you're right at the beginning of your journey, Experts Academy takes you through everything you need to know to be truly successful in your field," reports Stevenson. "This online training program has everything you need to know about how to become an expert in the field of marketing. What you receive are the very same methods in which Brendon himself has used and continues to use in his own, incredibly successful marketing efforts."

This program includes an Elite Coaching Program where people learn everything there is to know about how to successfully market their products, 5 Week Marketing Mastery Online Training that covers the 5 "expert" areas that people can succeed in – an author, a speaker, a seminar leader, a coach and an online marketer, 5-week Promotional Partnership Crash Course that shows people the very best ways to get the very best promotional partners, and One Free Ticket To The Experts Academy Live; a ticket to Brendon's live event where he'll teach users the very latest in marketing strategies. People will also get the most cutting edge in all things marketing, putting them one step ahead of all the competition out there.

"This is a completely cutting edge marketing strategy that takes everything the marketer in 2013 needs to be aware of; from social media to PR to collaborating with the right promotional partners," says Stevenson. "You get a complete year long marketing plan – exactly as Brendon himself has used many times to incredible success. Take advantage of being able to directly ask Brendon any questions you might have about any aspect of the course – every Friday – in the 5 week Marketing Mastery Online Training and Partnership Crash Course modules."

"Okay, so in case you haven't gathered it already from the above, we love Experts Academy. In fact, this is one of the most comprehensive online training courses we've come across for those in the marketing game. Covering pretty much every aspect you need to know about how to become, not a great marketer, but "an expert in your field," this is the program that really could make the difference between making a good income, and making a life-changing amount of money! Thanks, Brendon. You're certainly going to have a lot of very happy punters out there. Well done!"
