

## Spizzio Real Estate Launches Premium Search Engine for Orange County Properties

*Orange County realtor offers buyers and sellers access to state-of-the-art search engine.*

TUSTIN, CA, January 21, 2013, Spizzio Real Estate recently launched its new website (Spizzio.com) providing the most up-to-date information for **Orange County real estate**. Spizzio.com offers both buyers and sellers a fast, user-friendly search facility supported by high-quality photography and virtual tours.

The third most populated county in California – and home to Disneyland - Orange County boasts many well-known, beautiful coastal communities. Buyers looking for **Balboa Island**, Laguna Beach or **Newport Beach real estate** will find that Spizzio.com is a 'one-stop shop' that answers all their needs. In addition to property listings, a real estate market blog is updated several times a week with current market data. Blog posts include information on special events taking place that month in Orange County and offer an excellent resource for people who may be relocating to the area.

“Our goal is to be the premier real estate search engine in Orange County,” says owner Joe Liuzzi. “Our user-friendly site offers buyers access to a wide range of properties and enables them to choose from a number of categories before they start searching, eliminating a lot of time wasting.”

Searches are pre-filtered to make finding the right property more convenient and efficient for buyers. Prospective purchasers can search for different home categories such as one- or two-story homes, **pool homes**, short sales or **luxury properties**, saving time and frustration. The site also includes a map search and other advanced search functions. Spizzio.com is updated ten times a day so buyers can always access the latest information.

Visit <http://www.spizzio.com> for more information on buying or selling **real estate in Orange County**.
