

## SenarioTek Achieves ISO9001:2008 Certification

January 23, 2013 (Santa Rosa, CA) – [SenarioTek](#), a leading designer and manufacturer of RF and microwave products, is pleased to announce it has received ISO 9001:2008 certification from ABS Quality Evaluations. This certification covers SenarioTek’s processes for the design, engineer and manufacture of RF/Microwave products and integrated systems.

ISO 9001:2008 is an independently-reviewed quality standard with international recognition, and it designates SenarioTek’s custom fabricated and manufactured products as consistently meeting customer and regulatory requirements.

“ISO 9001:2008 certification reflects our commitment to being a premier developer and manufacturer of RF and microwave products through continually improving the effectiveness of our quality management system,” said Simi Ghiasvand, President and CEO of SenarioTek. “Certification is a significant milestone given that quality and reliability are critically important for our customers. Defense and Wireless manufacturers can be confident that SenarioTek solutions are designed and produced according to the highest standards of quality.”

### About SenarioTek

[SenarioTek](#) designs and manufactures RF and microwave solutions for the wireless, telecom, ATE, aerospace and defense industries. We offer the market's most competitive alternative for the creation of RF and microwave switch matrix products, frequency converters, calibration solutions, and integrated test systems with frequencies up to 60 GHz or more.
