### ENTERPRISE

# Enterprise Strong WebRTC joy!

## Seamless Enterprise Integration

easyRTC Enterprise integrates seamlessly with existing Corporate Databases, Security and Authentication Systems and Apache Web Servers.

## Real-Time System Management

easyRTC Enterprise's Real-time Monitoring System lets system administrators easily view and interact with the current state of easyRTC Enterprise's user activity & sessions.

## Redundancy & Scaling for Enterprise

Clusters of easyRTC Enterprise servers support automated failover and large scale operations. Our Configuration Management Tooling makes enterprise strong management easier.

## Enterprise Strong Reporting

easyRTC Enterprise reports support Analytics for the marketing department, Session and User Reports for billing, and Event Log Reports to track down issues for software developers and system administrators.
