

## Information Security Awareness Training *Made Easy*

*People are the first line of defense in your information security program. Now you can educate each member of your organization on fundamental security awareness principles quickly and easily.*

### Program Benefits

- ✓ **Educate Employees** – Train each member of the organization on key information security and data privacy principles.
- ✓ **Easy to Use** – All you need to implement the program is a web browser! No complicated software to install or maintain.
- ✓ **Document Compliance** – Most information security and data privacy regulations require employee education and training.
- ✓ **Management Reports** – Management receives detailed reports of the training results for each employee and department.
- ✓ **Easy Customization** – Our courses can easily be customized to include your own logos or any specialized content.
- ✓ **Flexible Deployment** - Each course is fully SCORM compliant and can be imported into existing LMS systems or hosted online.
- ✓ **Cost Effective** – Training starts for only \$20 per user, with volume discounts for more users.

### Quality Content

Information Shield offers the entire suite of **OnGuard™** information security and data privacy awareness courses from Media Pro. These training courses have won over 100 different international training awards, and can be used “off-the-shelf” or customized easily to meet your specific needs.

**OnGuard™** courses include:

Security Awareness  
PCI-DSS Awareness  
Privacy Basics  
HIPAA Privacy

Security Awareness with Privacy Principles  
Remote and Mobile Computing  
Identity Theft Red Flags  
Responsible Use of Social Media

### **BONUS!** Free Security Awareness and Training Policy

Each customer who orders a Security Awareness and Training Package will receive a sample *Information Security Awareness and Training Security Policy* that incorporates all of the requirements of key data protection regulations.
