linked2pay

Simplify Payments

Make it easier for your business to get paid by credit card or ACH

linked2pay combines terminal, online and email payments into a single, easy-to-use solution

Virtual Terminal *no equipment needed*

- *Use wherever you have Internet access*
- *In-person, mail order and telephone payments*
- *Option to add fields and save multiple terminals*
- *Can give customers a future date payment option*
- *Delivers immediate confirmation and email receipt*

Online Forms *ready for payments in a minute*

- *Build and post a payment form in a minute*
- *Add fields to let a customer look up their bill*
- *Works for one-time or recurring payments*
- *Can give customers a future date payment option*
- *Delivers immediate confirmation and email receipt*
- *Requires no technical skill to set up and use*

Emails *with integrated payments processing*

- *Billing by email with built in payment processing*
- *Works for one-time or recurring payments*
- *Supports file attachments with password option*
- *Can give customers a future date payment option*
- *Delivers immediate confirmation and email receipt*

User Comments:

"I highly recommend linked2pay to anyone looking for a simple, fast and inexpensive payment method!"

"Making ACH (e-check) payments this easy saves us a great deal of money because there are no interchange fees!"

"Setup was simple and straight forward and completed quickly, and allows me to accept credit cards and e-checks."
