Service Provider

As a service provider Davalen's RapidValue Services are unrivaled. The RapidValue Services are designed to ensure clients receive the most value from their investment in IBM software. These services consist of a customized blend of system architecture, development, implementation assistance and mentored training.

Davalen's reputation has been built on, but is not limited to, our expertise in the following areas:

IBM WebSphere Portal Solutions

Davalen's ability to rapidly create applications for WebSphere Portal is second to none. Clients turn to Davalen for turnkey WebSphere Portal solutions and for training and mentoring their development teams. Davalen has the best team of IBM Web Experience Factory developers in the industry for custom portlets in half the time. Glitzy dashboard solutions for WebSphere Portal, utilizing our new set of flash, CSS3, and HTML5 builders, are a Davalen trademark.

IBM Lotus Collaborative Solutions

Davalen has a long history of helping clients make the most of their investment in IBM Collaboration Solutions software through custom development, upgrades, audits, enterprise integration and training.

Enterprise and Retail Search Integration Solutions

Powerful search solutions integrating Lotus Notes / Domino, WebSphere Portal and WebSphere Commerce are designed and built by Davalen's team of experienced Search and Discovery experts. Clients request Davalen to identify and implement search solutions that best fit their technical and line of business needs.

Software Resale

Davalen is a value added reseller of IBM Software. As experts in the software that we sell, we make sure that your are purchasing only the licenses that you need and that you are taking advantage of all IBM software that you are entitled to.

Staffing Support

As a valued Business Partner, Davalen partners regionally, nationally and internationally with IBM, across all of the software services portfolios including ISSC, ISSW, and ISSF. Davalen provides high level, senior technologists who have solid experience with the latest software versions, and maintain the most recent IBM software certifications. Our technologists are constantly learning the newest IBM product offerings that cover all of the IBM product software stack and more.

Training

Several of our technical staff are IBM certified instructors. This allows us to easily incorporate official IBM training into our solutions. Our instructors also deliver Davalen's IBM Web Experience Factory Application Development training, which is licensed by IBM.
