Cellulite Factor, a unique 5 step detoxification program set up by Dr. Charles Livingston that claims to help women dramatically reduce cellulite using a 1,000 year old East African secret has caught the attention of [CelluliteFactorReviews.org](http://CelluliteFactorReviews.org)'s Stan Stevenson, prompting an investigative review.

“The Cellulite Factor is an immediate download program that consists of 4 x PDF files,” reports Stevenson. “The 5 steps in this unique 5 step detoxification program are detoxification, eating right for getting rid of cellulite, anti cellulite supplements, the coffee grind wrap method, and the lymph drink. Not to mention everything you need to know about food, grocery shopping and how to avoid eating the toxins that have a major influence on the creation of cellulite.”

Stevenson explains the difference between Cellulite Factor and other anti-cellulite programs:

“If you’re serious about wanting to get rid of your cellulite, then the Cellulite Factor is probably one of the most genuine, and least hyped, products available on the market today,” says Stevenson. “Not only will you reduce or lose your cellulite by following the Cellulite Program, but you’re highly likely to lose weight as well. Not to mention become healthier in the process, due to feeding your body the real nutrition it requires. The program focuses on the internal body – and the lymph system (the body’s natural drainage system) in particular. There’s no mention of surgery at all, neither any “miracle” creams that will melt away the problem with no work on your behalf.”

“We predict that there’s going to be a whole host of women delighted with what they get. The Cellulite Factor is jam packed full of sensible and proven advice for getting rid of the dreaded wobbly bits Dr. Charles Livingston is a reputable source of information – you can tell that simply by seeing how he backs up each method with real facts and figures. The Cellulite Factor is designed especially for you. And one of the biggest advantages is that it not only helps you reduce (or get rid of), those awful orange peel thighs and butt, but you’ll also become far healthier and slimmer in the process. Well done, Dr. Charles – and thank you.”
