JW Marriott Mexico City Begins \$30 Million Renovation Project

One of the premier Mexico City hotels plans to modernize its lobby and guest rooms while maintaining its elegant style

Mexico City, Mexico – The JW Marriott Mexico City will stand even taller amongst Mexico City hotels after a recently started \$30 million renovation project that aims to modernize the structure from top to bottom.

Set to be complete by June, the facelift will preserve the modern architecture and traditional Mexican details that the Mexico City luxury hotel is known for while refreshing all guest rooms, lobby, bar, fitness center and restaurant. The project is part of Marriott’s commitment to creating comfortable spaces for guests to eat, drink, work, socialize and sleep.

The hotel’s guest rooms and suites, with their marble bathrooms and floor-to-ceiling windows, will receive special attention during the remodel with fresh paint, new carpets and draperies. Luxurious down comforters, custom duvets and cotton-rich linens have become the standard at the flagship Mexico City hotel and will continue to complement other high-end amenities, such as in-room safes, wireless high-speed Internet, large writing desks with ergonomic chairs and large LCD TVs.

Besides the guest rooms, the lobby of the Mexico City luxury hotel will be transformed into interactive comfort zones with private spaces for guests to unwind and connect as well as semi-private check-in pedestals for friendly and courteous staff members to provide individualized attention.

The hotel’s renowned restaurant Pergamino Latin Flavors will be moved but will continue to serve its unique breakfast, lunch and dinner menus with seafood delicacies from the Cevicheria, fresh salads, top-choice beefs and creative sides.

An expansion of the state-of-the-art fitness center and onsite spa is planned to include additional cardio equipment and free weights as well as refreshed rooms for facials, massages, manicures and pedicures.

The hotel, built in 1996, received its last renovation in 2006. Meeting rooms at one of the premier hotels in Mexico City are set to receive a makeover in 2014.

About the JW Marriott Mexico City Hotel
