**Toluca, Mexico** – With its natural beauty and sophisticated styling, the all new [Courtyard Toluca Tollocan](#) has become the center of attention in Mexico State's capital.

The Toluca hotel is one of the first in the country to feature Marriott's "million dollar" lobby boasting state-of-the-art technology blended with the comforts and conveniences of home, according to Guillermo Rodea, Courtyard's marketing and sales director. The

new facility also touts its complimentary shuttle service to and from Licenciado Adolfo Lopez Mateos International Airport as well as destinations within a 5-mile radius.

"We have excellent customer service and have been ranked number one in the country since our opening because we go beyond customer needs," Rodea said.

Guests will feel welcome the second they arrive at one of the newest hotels in Toluca. Friendly and knowledgeable staff members promptly greet travelers from individual pedestals rather than a traditional front desk, allowing one-on-one interaction during the check-in and check-out processes. The Toluca hotel's welcome center also boasts dedicated spaces where visitors can eat, drink, work and socialize before retiring to deluxe accommodations for a sound night's sleep.

Vacationers can enjoy their favorite TV shows on flat-screen TVs with personal remotes in strategically placed media pods along the perimeter of the new lobby. A separate nook houses computers where guests can print their boarding passes for traveling convenience. The 52-inch interactive GoBoard is one of the technological standouts in the modern common area. The touch-screen display allows visitors to get driving directions around the ever-growing city, search the latest flight information at Licenciado Adolfo Lopez Mateos International Airport, check out the many [things to do in Toluca](#) and keep abreast of weather and news from surrounding communities.

The crown jewel of the new lobby at the Toluca hotel is [Centro Restaurant](#). The eatery serves breakfast, lunch and dinner in a casual environment with a large communal table for groups of business professionals or more intimate tables for couples or individuals traveling for leisure. Comfortable bar seating can be occupied from 6 a.m. to midnight to enjoy freshly brewed coffee, a number of craft, domestic and imported beers or custom-concocted cocktails whipped up by a friendly bartender. Multiple flat-screened TVs throughout the space display news, entertainment and sports programming.

Business professionals looking for a place to hold a special meeting, conference, convention or retreat will take comfort in the hotel's nine meeting rooms with 9,580 square feet of flexible space. Rodea said the Toluca hotel has already become a favorite spot for government officials and top companies including Robert Bosch, Chrysler and General Motors.

"Business travelers really enjoy the hotel," Rodea said. "It's well worth their money to stay here."

Putting an emphasis on comfort, the Toluca hotel features 152 rooms and 32 suites with one king or two queen beds topped with cotton-rich sheets and plenty of fluffy pillows. New spacious desks with ergonomic chairs, 40-inch LCD TVs, iPod docks, complimentary high-speed Internet access, oversized chairs with ottomans, in-room coffeemakers, free bottled water, mini-refrigerators, irons and ironing boards and trouser presses are amenities all travelers can expect at the Courtyard Toluca Tollocan.

A heated indoor lap pool, state-of-the-art fitness center, 24-hour Market and laundry and dry-cleaning services also add sophistication to the hotel.
