Syndication Rockstar, a new WordPress plugin from internet marketing expert Sean Donahoe has been released creating a buzz of excitement among webmasters and provoking a review by WealthSpringMarketing.com's Tiffany Hendricks.

"Syndication Rockstar is a unique WordPress plugin that promises to help webmasters and online marketers improve their website traffic with the power of content syndication," reports Hendricks. "Our website WealthSpringMarketing.com caters to online professionals looking for traffic solutions that provide the best ROI, so obviously we wanted to review this program and see if it was something we could recommend."

Syndication Rockstar creator Sean Donahoe refers to his plugin as "An SEO game changer" that can help struggling webmasters get high quality search engine traffic without doing anything sneaky or "black hat". The Plugin works by syndicating out content to an array of high authority websites.

Hendricks explains Syndication Rockstar's appeal:

"Every website owner is looking for ways to get more qualified visitors, and search engine traffic has traditionally provided an excellent ROI since it is basically free," says Hendricks. "That said, getting free traffic is often easier said than done and webmasters need to be careful to respect the rules put in place by the powers that be. So when a plugin like this comes along offering a safe, hands-free and effective way to get free traffic it causes quite a stir."

In addition to the plugin customers also receive a Quickstart Guide for getting maximum results, Rapid Reference Mind Maps, Product Setup Training Videos, free updates and support, and over \$500 worth of additional video tutorials and training.

"Content syndication has been proven as a safe and effective way to improve website visibility and traffic, and it is indeed a model we use ourselves in our online business" says Hendricks. "Donahoe's plug-in makes effective syndication almost effortless, and completely hands free after the initial set-up, so it is no wonder this program has quickly become so popular."
