## Praise for Red Zone:

“So for a good suspense, action, sexy, sports romance, you can’t do much better. Stunningly hot and just plain enjoyable to read.”-

## Summary:

The only thing Rebecca Carson ever wanted was to join the FBI. Now her career is in danger because of a situation over which she’d had little control.

Gage Daniels has made a pretty good life for himself. As a professional football player, he’s used to getting almost everything he’s ever wanted with just the snap of his fingers. This includes women. A well-timed smile is usually all it takes to attract the opposite sex, especially in Nashville.

When a stalker threatens Gage, the team owner calls an old friend, Rebecca’s ex-partner Travis Hansen, to help protect his star quarterback. Hansen offers Rebecca the job, something to keep her from going crazy in her apartment while she waits in limbo, and she jumps at the chance. Now Rebecca must work to protect Gage while staving off his advances. The last thing she wants is to be another notch on a hotshot athlete’s belt.
