Dear Daniel,

I want to sincerely thank you for helping me with the Reverse Mortgage. Your patience with my asking you so many questions is much appreciated. There were times that I had some doubts. Questions would enter my mind that I was not sure of. But you kept reminding me saying, "Call me if you have questions at anytime." I felt reassured after talking to you. You've kept me updated throughout the process of the loan. Your honesty and trustworthiness had given me confidence to work with you. **This Reverse Mortgage has taken so much financial burden off my shoulders.** I can now begin to live more comfortably. Again Mahalo, it's been a pleasure working with you.

With warmest Aloha,

Dear Daniel:

Thank you for helping me get the Reverse Mortgage in June, 2009. I was able to retire from my teaching job at a preschool, 35 years! Without doing this type of mortgage I would not be able to retire at 64, but would have had to stay on till I became 66. I still had a mortgage and my retirement from social security would not be enough for the mortgage payment. I would also need an income to help with the other expenses like food, utilities, insurance, etc. I am so relaxed and "Happy". I took the extra money that I received after paying off the mortgage and invested in C D's and am now doing some renovations in my home after 40 years. I never had that 'extra' monies to do the improvements. I could go on and on about the reverse

mortgage benefits and instead I am referring your company to other people. My daughter-in law was able to get her VA loan thru your company after another mortgage company turned her down and it only took one day to get the approval! I wish you a prosperous 2009.

Dearest Daniel,

You have been absolutely wonderful through this tedious process of getting a reverse mortgage. You have been honest, and hand holding though the process and helped me to make decisions regarding whether or not even to get it. And above and beyond your quick responses to all of my questions you have given me lower fees than anywhere else that I inquired about this type of mortgage.

I will definitely refer you and your kind and friendly staff to anyone who needs a mortgage.

Thank you so very much for helping me in this time of need.

Aloha Daniel,

When my husband and I decided tap in our equity I called my niece who lives in Kapolei for recommendation and gave me your name and number. She said: she has dealt with you and your company on several of their real estate investment in Oahu. Being Sunday at that time, I called and left a message at our office and was surprised I got a call back at my cell phone the same day.

Our loan application has taken a long, challenging and frustrating process, bit it was finally approved. How long was it?

And the fax machine! How about he many long distance phone calls! Working with a client from the mainland requires enormous patience, and timing because of the time element, but in the end, my husband and I are very grateful to you and Ashlee specially. Not only our loan was approved, we even got extra monies to buy me a 2 carats diamond ring, perhaps 3 carats (that would be a surprise) for our fortieth wedding anniversary next month.

Again thank you and to Ashlee. I will contact you on our next visit to the Island.

With sincere regards,

To Whom It May Concern:

My experience with Aloha Mortgage Solutions has been a completely positive and uplifting experience. In the beginning, my husband and I were almost skeptical that anyone could actually help us get into a home, especially one on Maui. Kamai Medeiros, our mortgage broker, gave us hope and assured us that they would be able to help us, and they did. In May of 2009, we finally moved into our own, brand new, three bedroom house. We opted to use the VA loan in which Kamai knew everything about. His encouragement and vast knowledge about the home buying process made things much easier on us. Everything was done in a prompt, timely and professional manner. I would

highly recommend any prospective buyers to him and Aloha Mortgage Solutions in general. Thanks again!
