## STANDARD VEHICLES

[WWW.AUTOTRUCK.COM](http://WWW.AUTOTRUCK.COM)

**We put the work in  
work trucks.**

Every fleet starts with one vehicle.

A fleet is the sum of its parts. Each vehicle has to be its own success story. That's why no matter what the size of your fleet, how simple or complex your applications, you need an upfitter that looks critically at your needs and has the expertise to provide solutions, not just equipment. Auto Truck Group is North America's leading work truck upfitter—since 1918.

**Request our FREE Work Truck Upfit Selection Guide at  
[www.AutoTruck.com/guide](http://www.AutoTruck.com/guide) or Scan the QR Code Above.**

# INTRODUCTION

**Auto Truck Group** is one of the leading work truck upfitters in North America. Founded in 1918, Auto Truck Group serves the continental United States and Canada with nine service centers and ship-through service with 5 of the top OEM manufacturers. Auto Truck Group specializes in design, manufacture and installation of truck equipment for a wide variety of customers, trades, and industries. From custom orders to entire fleets, Auto Truck Group is ready to help pool/dealer customers, commercial users, fleets, utilities, municipal and state governments, railroads, construction, energy and many other small businesses.

**FORMULA**  
Percentage of Body & Payload Weight Carried by Axles

**Example:**  
C.A. or C.T. Dimensions 114"  
Subtract cab to body clearance - 3"  
Subtract half body length (16' body) - 96"  
Body center ahead of rear axle center: 15"

**CENTER OF BODY MUST BE AHEAD OF REAR AXLE CENTERLINE.**

Divide the body center ahead of the rear axle center by the wheelbase. This gives the percentage of body and payload weight on the front axle.

**Example:** 15" ÷ 188" W.B. = .0797 or 8% on the front axle;  
92% on the rear axle.

**TRUCK CLASSIFICATIONS by GVWR**

Class 1	0 - 6,000 lbs.
Class 2	6,001 - 10,000 lbs.
Class 3	10,001 - 14,000 lbs.
Class 4	14,001 - 16,000 lbs.
Class 5	16,001 - 19,500 lbs.
Class 6	19,501 - 26,000 lbs.
Class 7	26,001 - 33,000 lbs.
Class 8	33,001 +

**DUMP BODY LENGTHS FOR POPULAR C.A.'S**

SINGLE AXLE				TANDEM AXLE			
C.A.	Body Length			C.A.	Body Length		
	Minimum	Recommended*	Maximum		Minimum	Recommended*	Maximum
60"	8'	8'	9'	84"	11'	12'	12'6"
72"	9'	9'	9'6"	96"	12'	13'	13'6"
84"	10'	10'	11'	102"	12'6"	13'6"	14'
102"	11'	12'	13'	108"	13'	14'	14'6"
108"	11'6"	12'	13'6"	120"	14'	15'	15'6"
114"	12'	13'	14'	126"	14'6"	15'6"	16'
120"	13'	14'	15'	140"	15'6"	16'6"	17'
138"		16'		144"	16'	17'	17'6"
				150"	16'6"	17'6"	18'
				156"	17'	18'	18'6"
				168"	18'	19'	19'6"
				174"	18'6"	19'6"	20'

Orange is Contractor Body Single Axle C.A.

\* Based on 12' body overhang. C.A. & C.T. measurements are approximate and to be used only for estimating body lengths.

**Platform & Van Body Lengths for Popular C.A.'s**

C.A.	Body Length
60"	9'
72"	10'
84"	12'
102"	14'
114"	15'
120"	16'
138"	18'
150"	20'
169"	22'
187"	24'
197"	26'

**Service Body**

56" C.A.	- 8'	(98)
60" C.A.	- 9'	(108)
84" C.A.	- 11'	(132)
102" C.A.	- 12.5'	(150)

**Cut Away Van Body**

W.B.	C.A.	Body
138"	/ 80"	/ 12'
158"	/ 100"	/ 14' - 15'
176"	/ 118"	/ 15' - 16'

To determine body overhang from the hinge point, use C.T. of chassis plus 48". Subtract this total from the length of body. Remainder is approximate overhang. No allowance has been made from cab clearance, muffler or exhaust stack interference.

On single axle units - C.A. plus 32" is hinge center. Subtracted from body length will give overhang. No allowance has been made for cab clearance, muffler or exhaust stack interference.

We put the work in work trucks.
