

UNITED STATES FUTSAL®

A Non-For-Profit Organization

December 3, 2012

To whom it may concern:

As the President and CEO of United States Futsal, I am proud to say that our partnership with SnapSports® is well into its fourth year. Each year SnapSports® continues to prove that they are the industry leader in athletic surfacing, designing and manufacturing cutting edge products that far surpass the competition.

U.S. Futsal® hosts yearly Regionals and a National Championship on anywhere from 60,000 to 80,000 square feet of SnapSports® surfacing. With over 5,000 participating athletes, I rest assured that not only are we providing a surface that exhibits superior ball play, we are providing the safest sports flooring available. SnapSports® has manufactured a high performance product with an incredible level of protection from injury upon impact that U.S. Futsal® is proud to endorse.

The team at SnapSports® is unmatched, offering us a personal relationship with Company leaders and access to the best customer service in the industry. Cultivating U.S. Futsal® partnership with SnapSports® has been a wonderful experience, one that we hope to continue and expand. When it comes to product and organization, I can't think of a better Company. The U.S. Futsal® and I are proud to endorse SnapSports®.

Sincerely yours,

Alexander J.C. Para
President & CEO
