

Flexible Circuits with Carrier Panel

[Ideal for Automated Assembly]

Flexible circuit array bonded to a pre-routed FR4 carrier panel.
Circuits are easily removed after assembly.

Flexible Circuits with Carrier Panel:

- ✓ Stiffener material frames the circuit or array to hold flat during assembly.
- ✓ After assembly, flexible circuits are easily separated from the panel.
- ✓ Flexible Layers: Polyimide Material
- ✓ Rigid Carrier Panel: FR4 Material

Tramonto Circuits is a worldwide provider of flexible and rigid circuit boards and assembly.
