*Fremont hotel near California's Great America theme park completes \$1.8 million remodel to lobby, common areas*

**Fremont, CA** – California's Great America may be just minutes away, but the greatest thrills guests will find while staying at the [Courtyard Fremont Silicon Valley Hotel](#) are the new renovations to its lobby area and guest rooms.

The Fremont hotel recently finished a \$1.8 million dollar renovation that will have guests screaming for joy. From its rejuvenated lobby area to new amenities in each guest room, this Fremont, CA, hotel will turn guests' expectations upside down from the moment they walk through the door.

In the new lobby area, guests check in at welcome pedestals instead of the traditional front desk, which allows them to interact with staff and get to their rooms faster. They also can relax in the new seating area featuring a communal table. For something a bit more intimate, private media booths with high-definition televisions provide plenty of entertainment and a quiet place to relax. The newly installed GoBoard lets guests explore entertainment options in the area, from the most popular nightclubs and restaurants to local attractions in nearby San Francisco. This oversized touchscreen television also has the day's news headlines, business updates, sports scores and weather reports.

After a day at the San Jose Convention Center, the Mission and New Park Mall, guests can return to the Fremont hotel and dig into the offerings at [The Bistro — Eat. Drink. Connect](#) for breakfast and dinner. The new menu contains reimagined classics such as sandwiches, burgers, pizza and salads, all incorporating the freshest ingredients to create bold flavors as vibrant as the surrounding Bay Area. In the evenings, guests can sip on craft brews, signature cocktails and wines while enjoying comfortable seating and taking advantage of happy hour. A new 24/7 Market also sells snacks and toiletries just in case guests forgot to bring a toothbrush.

Regardless of how they choose to enjoy the new lobby, guests can connect to improved high-speed wireless Internet access, allowing them to surf the web, contact the home office or send emails to family and friends. Laptops can also be left at home thanks to new computers with printing capabilities installed in the business library. Guests also can save a few minutes at the airport by taking advantage of a dedicated terminal to print out airplane tickets and check flight statuses.

The main attraction for guests can be found in each of the rooms. New plush bedding offers shortened lines to dreamland, while functional work spaces let busy travelers finish their assignments efficiently so they can relax in front of large flat-screen televisions. For even more comfort and flexibility, a separate seating area can serve as the perfect place to entertain friends and associates or plan an adventure to nearby attractions via the complimentary wireless Internet access. Before guests go out into the world, however, they can freshen up and ready themselves in remodeled bathrooms with Paul Mitchell bath products and amenities.

The [hotel in Fremont, California](#), has put extra effort into its green initiatives, helping to do its part in environmental conservation. New receptacles for glass, paper, plastic and metal can be found at the side exits to the hotel and encourage guests to sort their refuse instead of just going into the landfill.
