

## **ROCKLER LAUNCHES LINE OF BEER TAP HARDWARE**

### **Home Beer Tap Owners Can Now Customize Their Taps**

MEDINA, MN (February 20, 2013) - Rockler Woodworking and Hardware has introduced an entire line of beer tap hardware and handle components that allow users to customize their own beer taps. Offering a pre-turned handle shaped like a beer bottle, attachment hardware, decorative finials and label shields, users are able to choose their own hardware and create a custom handle fixture for their home beer tap.

"Anyone with a beer tap at home can make a cool custom tap handle with the elements we offer," says Steve Krohmer, Vice President of Product Development. "Using the Pre-Turned Maple Beer Bottle Handle, only simple drilling is required to install the hardware and produce the authentic look of a real bar tap fixture. Those who want to put in a little more time and effort to customize the handle can end up with really stunning results."

The Beer Tap Hardware components all feature a matching silver finish. The pre-turned Maple Beer Bottle Handle can be connected to the pour spout with either a Tulip or a Tapered Ferrule, and the top of the handle can be decorated with any of three Finial options. A Label Shield can be added to display the logo or label of the beer on tap.

The Beer Tap Hardware line consists of the following items (viewable at [rockler.com](http://rockler.com), keyword: beer):

48813 Pre-Turned Maple Beer Bottle Tap Handle, \$14.99

45824 Tulip Beer Tap Ferrule, \$4.99
