Transitions of Care and Reducing Readmissions Boot Camp

REDUCE READMISSIONS!
InterContinental Hotel Tampa
Friday, April 5, 2013
8:00am to 5:30pm

“Nearly one in five Medicare patients is readmitted within a month, which the government considers a prime symptom of an overly expensive and uncoordinated system.”

It is clear that CMS, and intuitively other payers of health care, are aggressively looking at every opportunity to improve efficiencies and reduce waste in all transactions of care across the health care continuum. To provide participants an understanding of, and tools needed to work successfully with, the rules for Medicare’s Hospital Readmission Reduction Program, ABQAURP presents an intensive one day event to address this tumultuous time in health care. Whip your knowledge and skills into shape! Register Today!

Conference Objectives

- Provide an overview and update of national strategies addressing transitions of care and reduction of readmissions
- Discuss specific roles physicians and their extenders can play to reduce inappropriate readmissions
- Discover Transitions of Care opportunities to reduce readmissions in high risk patients
- Explore initiatives that have been successfully employed to reduce readmissions in hospitals

Don’t miss the most important Readmissions conference of 2013!

As we transition from volume based to value based care, health care providers and other stakeholders are struggling to identify key drivers to address the challenges around the redesign of health care delivery and payment reforms. What will be the role of integrated care management, ACO’s, and transitions of care models and how can we efficiently integrate all transactions of care across the care continuum?

Join us as we determine what the practitioner needs to not only survive, but to thrive in the evolution of health care.

Conference Objectives

- What is the relationship between hospital-based and community-based approaches to preventing readmissions?
- Readmission or Post-Hospital Syndrome....what do you think?
- How is Value rewarded through Care Redesign and Improving Transitions of Care?
- Identify and manage health care cost drivers through a well-designed care management program.
- Are your coding, documentation, and payments congruent?
- Determine community-based programs successfully employed to manage care transitions.
- Discuss what you need to be a sought-after provider by EVERY payer.
