

Collaborate With SimpleMeetup

The new SimpleMeetup suite of hosted collaboration services provides everything you need for more productive meetings.

SimpleMeetup Video

SimpleSignal has partnered with Polycom® to offer the power, flexibility and features of an enterprise-grade Polycom HD video conferencing system in a hosted, fully outsourced solution (Video as a Service or VaaS), which eliminates the hassles of ownership and up front capital investment. Secure multi-point video conferencing bridges, co-location facilities and network management are all maintained so you don't have to. For the first time ever you can enjoy all the benefits of a Polycom RealPresence™ system for one low flat monthly fee. Change the way you work together, improve team productivity, and join the collaboration revolution with SimpleMeetup Video Conferencing by SimpleSignal!

SimpleMeetup Audio

The bottom line is savings, and with SimpleMeetup Audio's flat rate pricing that costs less than \$30 per month, you can save over 50% on your audio conference calling expenses. With the explosion in cell phone use and the increasing adoption of unlimited calling plans, there's no need to pay for toll-free charges for all your callers. With support for HD Audio and our sound enhancement technology, SimpleMeetup Audio is setting a new quality standard in audio conferencing. There's no need to schedule or reserve calls anymore with SimpleMeetup Audio – your bridge is ready when you are, 24x7.

SimpleMeetup Desktop

SimpleMeetup Desktop is a hosted, feature-rich web and video conferencing tool for hosting online meetings, webinars and training sessions. With SimpleMeetup Desktop, businesses will have more capacity to drive revenue, reduce costs and increase operating efficiency. SimpleMeetup Desktop provides useful, customizable, efficiency-driven features that simplify how today's organizations manage and attend meetings. With face-to-face, multi-person video, organizations can broaden their collaborative toolset and deepen engagement by doing more – from call scheduling, demonstrating products and hosting targeted webinars, to using desktop application or sharing.
