

FOR IMMEDIATE RELEASE:

CYBRIX GROUP AWARDED THE PRIME ON COVETED INTEGRATED CYBER OPERATIONS (ICO) CONTRACT

Cybrix Group's IT Expertise and Cyber Experience Make Them the Clear Choice for SSC Atlantic

Tampa, FL, February 25th, 2013—Cybrix Group, an Information Technology firm with extensive experience in cyber security, Systems Engineering, Research and Development, systems integration, prototyping, testing & evaluation and Systems Life Cycle Management firm, announced today that they have been selected as a prime contractor on the Integrated Cyber Operations (ICO) contract. Under the ICO contract, Cybrix Group will assist the Space and Naval Warfare Systems Center (SSC) Atlantic with projects relating to Integrated Cyber Operations. Skip Durbin, Cybrix Group's Contracts Management Officer says, "SPAWAR Systems Center Atlantic is an important source of cyber security services for many government organizations, so their trust in Cybrix Group to assist with critical operations support, speaks volumes. SSC Atlantic is familiar with Cybrix's accomplishments through our USSOCOM contract work and has confirmed with this Prime award that Cybrix Group is a great resource that government agencies can rely on". Cybrix Group continues to be selected as a cyber security resource because of their expertise in information security and network operations, high level of personal and professional integrity, and a strong track-record working with various Department of Defense agencies through numerous contracts.

The contract will require various contractors to provide a wide array of support services including: security engineering, cyber forensics, cryptography, network monitoring, network defense, penetration testing, and supply chain risk management. Under this contract, the technical support services provided will affect a host of government agencies including, NETWARCOM, NAVSEA, U.S. Army Intelligence and Security Command, the Department of Justice, and the Department of Homeland Security. The overall impact of this project will be to allow our military forces to access information and safely navigate the cyber domain while eliminating all opportunities for adversarial forces to do the same.

About Cybrix Group – The Cybrix Group, Inc. is a Tampa, Florida-based information technology services firm and Service Disabled Veteran Owned Small Business (SDVOSB).
