

SimpleSignal and Gmail are Talking!

- CLICK TO CALL
- NO HARDWARE
- CRM INTEGRATION
- DETAILED REPORTING

gUnify is a cloud based, unified communications system specifically designed and built from the ground up for businesses running Google Apps. It is compatible with SimpleSignal's hosted PBX and most SaaS business application software, such as CRM & Project Management.

Call Logging with Click to Call
Automatically log all of your outbound calls from within Gmail to your favorite CRM and Project Management SaaS applications with gUnify's Click to Call service, utilizing your SimpleSignal IP phone service.

Conference Calling
Schedule all of your conference calls right from within Gmail to your Google Calendar

Presence
Let your co-workers and managers know you're (busy/unavailable) by automatically adjusting your Google Chat status to Red when you're on a call.

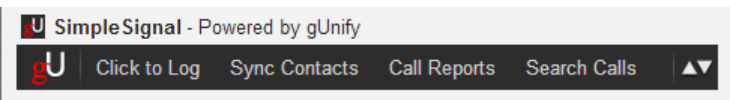

Reporting
Run detailed reports on all of your company's voice activities with just a click of a button. (Employee, Customer, Number, Date, Time, Duration for all outbound and conference calls.)

gUnify Contact Sync
Automatically identify phone numbers from within Google Apps that are not associated with your Google contacts, allowing you to quickly identify the missing information from your contact database.

Gmail Call Tagging
Tag all associated calls with a particular email automatically to the system with notes, date, time, duration, and a profile picture. Allowing you to easily tag calls to a specific email.

Click. Talk. Log.

- Integrated with SimpleSignal's hosted PBX
- No hardware required
- No software or browser plugins required
- Supports integrations with cloud solutions such as Salesforce, Zoho, Apptivo and Clio
- Deployable in minutes via the Google Apps domain control panel
