

## Google Apps for Business

---

 *Jaguar Land Rover goes Google with 15, 000 users*

### Google Mail

Gmail is a powerful email service that also includes, IM, voice and video chat. Each user gets 25GB of storage, powerful spam filtering, BlackBerry and Outlook interoperability, with a full 99.9% up-time SLA. The web securely powers Gmail, so users can be productive from the desk, on the road, at home and on mobile devices - even when you're offline.

 *Roche Group Gone Google with 90, 000 users*

### Mobile 1st

We are in a new era, an age of augmented humanity. The smart phone is the iconic device of the 21st century. If a mobile is not connected to the Internet it is just a device and cannot get the latest information. This change has been subtle over the past 5 years, but now we can build cloud applications that quite simply "just work".

 *BBVA move to Google Apps with 110, 000 users*

### Google Docs

Web-based documents, spread sheets, drawings and presentations that allow users to edit the same file in real time so users always have the latest version. Google Docs is built for online collaboration. Users can work from any location on the same document, edit in real time and view document revision history and roll back to any version, which are automatically saved.

 *ITV goes Google with 7, 000 users*

 *KLM move to Google Apps with 11, 200 users*

### Google Calendar

Google Calendar is a powerful calendar application that comes with Google Apps for business.

With Google Calendar you can overlay multiple calendars within a business to see when people are available without having to contact each individual. Google Calendar sends invitations and manages RSVPs. It can be easily integrated into your office system and can be accessed from a mobile device.

### Gstall

AppsCare®'s unique Gstall delivery suite for Google Apps combines the collective experience of certified professionals around the world into a set of proven methods, tools and architectures. This best practice deployment methodology can be tailored to each organisation and the requirements you have pre, during and post migration.

### Google Drive

Google Drive allows users to store, share, and collaborate on any document from any location around the globe, regardless of industry or network.

Introducing the all-new Google Drive. Now access your files, even the big ones, from wherever you are. Share them with whomever you want, and edit them together in real time.

For more information:  
[www.appscare.com](http://www.appscare.com)

AppsCare® are proud to be recognised as a world leader in the deployment and support of Google Enterprise services. AppsCare®, Google Enterprise Premier Partner supports over 2500 customers in over 30 countries.

Our AppsCare® teams are Google accredited to the highest levels. Our engineers were in fact the first outside of Mountain View to achieve both Google Apps Certified Deployment Specialist (GACDS) and Cisco IronPort Certified Security Specialist (CICSS) accreditations, providing AppsCare with unrivalled expertise in our customer care teams.

AppsCare® has built a strategic delivery model (Gstall) around our clients' imperatives. This model is global, collaborative and capable of delivering high-quality, high-value Google Enterprise solutions. Intuitive pre-configured toolsets integrated into easy-to-use delivery tools dramatically reduce the time client teams need to start using and benefiting from our solutions.

Google are one of the most dynamic, technologically advanced companies shaping the world today, enabling your talent base to function at a higher level and therefore drive higher revenue levels for your business.

Over 5 million businesses have now 'Gone Google' to increase productivity and collaboration by up to 50 percent while reducing IT and operational costs.

To discover how Google Apps can benefit your organization please either speak with a member of our team today, post show on +44 (0)8703 510018 or visit our website, [www.appscare.com](http://www.appscare.com).

Sincerely,

Michael Carter  
CEO

 Apps for Business

## Invitation

### Exclusive Invite to Google London

AppsCare®, alongside Google host Google Apps Executive Briefings at Google's London office – Central St Giles  
For more information about our next Executive Briefing speak with a member of the team today or email [helpmegoogle@appscare.com](mailto:helpmegoogle@appscare.com).

#### The agenda for the day:

- 13:00 - 13:30: Registration and welcome drinks
- 13:30 - 14:30: Introduction to AppsCare®, product demonstration and change management presentation
- 14:30 - 15:00: Customer success story. The migration process and strategies to overcome internal problems (i.e. gaining C level support)
- 15:00 - 16:15: Break-out 'pods', with experts in change management, technical and Google. From previous seminar feedback we have found this format to be more personal and rewarding as the ratio expert-attendee is smaller
- 16:15 - 16:30: Netpremacy Global Services close
- 16:30 - 17:00: Networking and drinks
