

eureka!

Eureka® AirSpeed® ONE Turbo Size Isn't Everything. Power Is.

Proven to clean carpets better than the #1 selling bagless upright.*

The Eureka® AirSpeed® ONE Turbo packs powerful performance with Eureka's exclusive AirSpeed® Technology, which uses an efficient air path with limited bends and turns allowing more air to pass through the vacuum. The direct air path from the floor to dust cup decreases the distance for dirt to travel and increases the amount of airflow for powerful suction.

Extremely lightweight, yet built to last, AirSpeed ONE Turbo weighs less than ten pounds and easily gets into spaces where dirt and allergens linger. A five-setting height adjustment switch lets users clean every type of carpet, while an innovative AirSpeed® Airflow Control Switch diverts suction power from the floor to the tools for above-the-floor cleaning confidence. The vacuum also offers a Stair & Upholstery Turbo Nozzle for removing dirt and pet hair from furniture and stairs and a low-profile nozzle engineered to easily clean under furniture.

Price: \$59.00

Weight: 9 lbs.

Availability: AirSpeed ONE Turbo is available at Walmart stores and on Walmart.com. Additional AirSpeed ONE models are available at other national retailers. Check www.eureka.com for details.
