

TEAM BUILDING

Maximize the performance, stability and harmony of your teams

The Shadowmatch Behavioral Benchmarking System and team building workshop scientifically compare team benchmarks and individual findings to provide your managers and their teams with deep insights into:

- The team's key 'foundational' behaviors
- The team's shared strengths and its opportunities for improvement
- Individual team members' habits and behaviors to facilitate greater understanding and more productive working relationships
- The best management styles for leading the team
- Guidance on developing the team for maximum performance
- A behavioral comparison to other high-performance teams

Whether your teams are performing well or falling short of expectations, the Shadowmatch

Team Building workshop reveal the specific behaviors and habits underlying your team interactions. We give your managers and employees the insights they need to learn more about themselves, their teammates and their team's dynamics—all of which dramatically improves productivity and team alignment.

The result is significant and lasting impact to your Return On Employment (ROE)...

- Improved employee engagement & satisfaction levels
- Increase individual and team productivity

100% of team building participants learn something new about themselves, their colleagues, or something that helps the team work more effectively together!

The Team Building Workshop is a two to three hour facilitated event. It can be customized to your goals but requires little setup & preparation. At the end of the workshop we provide you with a full debrief on the team including individual and managers reports for ongoing management and optimization of the team.

Contact us for more information, or schedule this workshop for your team.

Solution

- Team Building

Challenges Addressed
